

Make Facebook Useful: Find your Friends

Most of Facebook's features depend on the idea that there are people in your life that you like to stay in touch and connect with. Whether these people are best friends, family, coworkers, or acquaintances, once you connect to them, they are considered Facebook friends. We've created a few ways for you to easily find your friends. Without friends, Facebook can feel kind of...empty.

Friend Finder

Friend Finder asks you for your email address and password. Facebook then runs a check of the emails in your address book to see if any of the addresses match people who currently have profiles on Facebook. You can select which people you would like to send friend requests; friendships on Facebook need to be confirmed by both people before they become official.

Additionally, since we believe that Facebook is most useful when all of your friends are here, Friend Finder will prompt you to invite your contacts to join. You will be able to select which contacts, if any, you'd like to invite.

To get to Friend Finder, roll over "Friends" in the top menu and select "Find Friends."
