Kieso, 2018-02-28 Weygandt's *Accounting Principles* continues to provide students with a trusted and clear introduction to fundamental accounting concepts which has made this best selling text so popular. Helping students get the most out of their accounting course by making practice simple, the new edition continues to present the accounting cycle from a sole proprietor perspective whilst providing the latest IFRS integration throughout. Separate references to GAAP are made at the end of each chapter for courses where needed. To maximise student achievement, a plethora of additional teaching and learning resources will be available including self tests, exercises, templates, videos and more. Using metric units and companies with a more global feel, this new text is ideal for courses across the world.

Financial Accounting Theory and Analysis Richard G. Schroeder, Myrtle W. Clark, Jack M. Cathey, 2022-11-08 In the newly revised fourteenth edition of *Financial Accounting Theory and Analysis: Text and Cases*, a decorated team of accounting veterans delivers an authoritative exploration of how accounting standards impact the daily decisions of accounting professionals. You'll discover how accounting theory explains why particular companies select particular accounting methods and predicts the attributes of firms by analyzing the accounting methods they employ. The authors examine the latest empirical research relevant to theories of accounting and the uses of accounting information, including the fundamental analysis model, the efficient markets hypothesis, the behavioral finance model, the positive accounting theory model, and more. This latest edition robustly summarizes current disclosure requirements for various financial statement items and reviews the development and current state of accounting theory. It also includes discussions of the decline of the movement to adopt international accounting standards in the United States, coverage of the proposed IASB amendment to require reporting on ESG metrics, explorations of recent attempts to promote relevant and practical accounting research in academia, updated analysis exercises for real world financial statements, analysis of the differences between FASB and IASB accounting standards pertaining to fair value, coverage of the changes related to stock compensation contained in ASU 2021-04 and ASU 2018-07.
