## Financial Accounting for MBAs

### QUESTIONS

- Q1-1.** Organizations undertake four major activities: planning, financing, investing, and operating. Financing is the means a company uses to pay for resources. Investing refers to the buying and selling of resources necessary to carry out the organization's plans. Operating activities are the actual carrying out of these plans. Planning is the glue that connects these activities, including the organization's ideas, goals and strategies. Financial accounting information provides valuable input into the planning process, and, subsequently, reports on the results of plans so that corrective action can be taken, if necessary.
- Q1-2.** An organization's financing activities (liabilities and equity = sources of funds) pay for investing activities (assets = uses of funds). An organization's assets cannot be more or less than its liabilities and equity combined. This means:  $\text{assets} = \text{liabilities} + \text{equity}$ . This relation is called the accounting equation (sometimes called the *balance sheet equation*), and it applies to all organizations at all times.
- Q1-3.** The four main financial statements are: income statement, balance sheet, statement of stockholders' equity, and statement of cash flows. The income statement provides information about the company's revenues, expenses and profitability over a period of time. The balance sheet lists the company's assets (what it owns), liabilities (what it owes), and stockholders' equity (the residual claims of its owners) as of a point in time. The statement of stockholders' equity reports on the changes to each stockholders' equity account during the period. The statement of cash flows identifies the sources (inflows) and uses (outflows) of cash, that is, where the company got its cash from and what it did with it. Together, the four statements provide a complete picture of the financial condition of the company.
- Q1-4.** The balance sheet provides information that helps users understand a company's resources (assets) and claims to those resources (liabilities and stockholders' equity) as of a given *point in time*.

Financial Accounting for MBAs Peter Douglas Easton, 2008      **Applying MBA Knowledge and Skills to Healthcare**  
Reza Nassab, Vaikunthan Rajaratnam, Michael Loh, 2011 Clinicians increasingly need a firm grasp of the fundamental principles of business management finance and related subjects Even so business disciplines are still rarely taught during medical training while busy practices and complicated accounting tasks mean that gaining business acumen on the job is impractical for many As a result increasing numbers of clinicians learn the skills they need by taking an MBA Masters in Business Administration While an MBA may be the answer for some the formidable costs and time commitment it demands leave many busy practitioners seeking more accessible options This book provides a readable tightly organised alternative a primer on MBA principles and their practical application Twelve compact carefully structured modules cover the entire gamut of a business education from basic finance and accounting principles to strategic management methods and leadership theories Unlike some similar texts this book is designed to be light in tone easy to read and digest and thoroughly practical Busy clinicians academic surgeons administrative physicians and other healthcare professionals will find this an invaluable resource in understanding the core principles of business management Allied medical professionals and nurses will also find it useful as will interview candidates who increasingly face management questions as part of selection processes An invaluable resource in understanding the core principles of business management and in learning how to apply them For busy clinicians the value proposition is enormous in terms of the knowledge gained versus the amount of reading required to capture what the authors have so capably managed to distill between the covers The authors have done a remarkable task in capturing the latest concepts and thinking in the business management arena and the essence of an entire MBA education and customise it for healthcare professionals A delight From the Foreword by B Sonny Bal
