Financial Management Eugene F. Brigham, Louis C. Gapenski, Michael C. Ehrhardt, 1999 Written for and praised by students just like you FINANCIAL MANAGEMENT THEORY AND PRACTICE gives you relevant practical and easy to understand information covering all of the financial management topics you need to succeed in this course Underlying theory is presented first in an accessible style and then followed by the practical application

The Software Encyclopedia, 1986 **Financial Management**, 2004 *Subject Guide to Children's Books in Print* 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09

Practical Financial Management William Lasher, Peggy L. Hedges, Terry J. Fegarty, 2006 The first Canadian edition of Practical Financial Management is the latest milestone in a journey in education shared by the authors They believe that most finance texts are harder for students to understand than they should be The issue is relatively unique to this field Practical Financial Management is unique because of its approach to teaching finance that approach is the result of a combination of classroom and practical experience The book is easy to read enjoyable and non intimidating In other words the text is accessible and the reviewers have been unanimous in their praise of the work s conversational style and readability

Mathematics and Statistics for Financial Risk Management Michael B. Miller, 2013-12-12 Mathematics and Statistics for Financial Risk Management is a practical guide to modern financial risk management for both practitioners and academics Now in its second edition with more topics more sample problems and more real world examples this popular guide to financial risk management introduces readers to practical quantitative techniques for analyzing and managing financial risk In a concise and easy to read style each chapter introduces a different topic in mathematics or statistics As different techniques are introduced sample problems and application sections demonstrate how these techniques can be applied to actual risk management problems Exercises at the end of each chapter and the accompanying solutions at the end of the book allow readers to practice the techniques they are learning and monitor their progress A companion Web site includes interactive Excel spreadsheet examples and templates

Mathematics and Statistics for Financial Risk Management is an indispensable reference for today's financial risk professional **7000-7999, Social sciences, 8000-8999, Natural sciences; 9000-9999, Technology** Princeton University. Library, 1920 *Australian National Bibliography*, 1994 **Subject Guide to Books in Print**, 1997 The Book on Incentive Compensation Management David Kelly, 2014-04-10 Making Incentive Compensation Management ICM projects and operations more successful **Inside Accounting** David Leung, 2016-05-23 Based on a study covering a one year financial reporting cycle at a commercial subsidiary of a well known scientific research organization Inside Accounting examines how accountants and non accounting managers construct their company's earnings Addressing issues in both internal management accounting such as budgeting performance evaluation and control as well as external financial accounting such as book keeping monthly year end accounts and auditing David Leung focuses on how people classify transactions make professional judgments and use computer software for accounting and prepare for and facilitate the auditing process He also looks at accountancy training and the impact of people's affiliations to the accounting profession or other professions on their accounting and on their perceptions of financial statements Other contingent or contextual factors that influence the choice of accounting method such as time pressure reward structures management authority and institutions are also considered David Leung's research employs an innovative blend of theory and practice that redresses the imbalance between ethnographic studies of financial accounting and management accounting and helps close the gap between the academic curriculum and the experiences of practitioners His research leads the author to conclude that no act of accounting classification is ever indefeasibly correct that the accounting community's institutions and authority are central to the accounting process and to the truth and fairness of accounting numbers that accounting training involves extensive use of learning by doing and that both accountants and non accounting managers have goals and interests that often result in no better than good enough accounting This book will appeal to accounting and finance professionals and academics in finance as well as to sociologists and academic researchers interested in research methods and science studies
