IFE Examinations - Recommended Reading List

Candidates should be aware that this reading list is advisory rather than definitive and they will need to consider the items it contains selectively. Candidates should use the published syllabus for the examination as their guide in deciding what reading materials they need to help them prepare for the examination. The IFE recommends that all candidates should read widely in order to extend the depth and breadth of their knowledge and understanding.

The Institution does not recommend that candidates should buy every resource listed for each exam they take. In addition, it should not be inferred that other resources are unsuitable because they are omitted from the reading list. Candidates are also advised to review past examination papers and sample questions. Past papers, together with the associated examiner reports on the papers, can be downloaded, free of charge, from the IFE website.

The IFE has applied the following criteria in determining which resources should be included on this recommended reading list:

- the resource provides information which will be of benefit to the candidate in their professional life, providing depth and breadth of understanding;
- the resource contains some information that will be relevant to part of the specified examination unit;
- the resource is recognised by industry professionals as providing valuable information.

Those books with a **yellow background** can be supplied directly by the IFE. To order direct, please follow this hyperlink:
