Fire Service Manual Volume 2 Environmental Protection:

Fire Service Manual David Hanlon (MIFireE.),2008 This Fire and Rescue Manual is the first manual within the Fire Service Operations series dedicated to the protection of the environment This publication provides information and guidance designed to support firefighters Fire Brigade Service managers and trainers in their work at operational incidents training events and during day to day activities This manual contains guidance for Fire and Rescue Services FRSs on preventing and if necessary dealing with incidents with the potential to pollute Through its guidance this manual also ensures FRSs can help minimise their own impact on the environment by providing advice on how to prevent pollution from their own premises This new Fire and Rescue Service manual is essential reading for Fire and Rescue Service managers and those involved in incident response across all of the emergency services

Aircraft incidents Great Britain: Department for Communities and Local Government,Chief Fire & Rescue Adviser,2012-02-02 The Fire and Rescue Service Operational Guidance Aircraft Incidents provides a consistent approach that forms the basis for common operational practices It supports interoperability between fire and rescue services other emergency responders the aviation industry and other groups This guidance covers a wide range of incident types that Fire and Rescue Services are likely to encounter in relation to aircraft It is applicable to any event regardless of scale from small incidents such as an accident involving a microlight to a large incident involving a civil aircraft e g Airbus A380 resulting in a large scale major incident It covers the time period from the receipt of the first emergency call to the closure of the incident by the Fire and Rescue Service Incident Commander Whilst this guidance may be of use to a number of other agencies it is mainly for the UK Fire and Rescue Service In addition to detailed tactical and technical information it also outlines the key operational and strategic responsibilities and considerations that need to be taken into account to enable the Fire and Rescue Service to train test intervention strategies and plan to ensure effective response at an aircraft incident

Dangerous Goods Emergency Action Code List 2011 National Chemical Emergency Centre,2011-04-12 The 2011 edition of the Dangerous Goods Emergency Action Code List outlines the Emergency Action codes EACs also known as Hazchem codes for the use of the emergency services in conjunction with Emergency Action Code Cards EACs indicate to the emergency services actions that may be necessary during the first few minutes of an incident involving dangerous goods should the officer in charge of the incident deem it necessary to take immediate actions It includes details of Hazchem markings on the orange coloured plate of road and rail vehicles registered in Britain carrying dangerous goods in bulk or in tanks on domestic journeys The Dangerous Goods Emergency Action Code List 2011 is effective from 1 July 2011 and the Emergency Action Code List 2009 should no longer be used from that date

Fire and Rescue Service manual Great Britain. Fire Service Inspectorate,2007-03-07 Incidents involving rescue from road vehicles are dramatically increasing in frequency There are some 3500 deaths on the road each year with 35 000 serious injuries Modern motor vehicles are becoming safer for occupants due to advancement in technology so persons are more likely to survive

high impact speeds but are also more likely to become entrapped The Fire and Rescue Service as the primary rescue service requires national guidance to ensure a similar standard of response anywhere in the UK This manual is designed to highlight current best practice with regard to vehicle rescue techniques and first responder trauma care Each chapter forms an independent reference source but the publication as a whole forms a complete guide Chapters cover vehicle design and construction dealing with incidents safety procedures operational procedures extrication equipment medical considerations and trauma care Integrated Personal Development System I P D S Appendices cover Highways Agency Fire and Rescue Service memorandum of understanding training and general information and emergency services personnel ESP aide mmoire The CD ROM Vehicle extrication techniques is a multi media guide to rescue tool handling and extrication techniques
