Individual Differences in Arithmetic Ann Dowker, 2019-03-27 Arithmetic is still hugely important in many aspects of modern life but our personal attitudes to it differ greatly Many people struggle with the basic principles of arithmetic whilst others love it and feel confident in their arithmetical abilities Why are there so many individual differences in people s performance in and feelings about arithmetic Individual Differences in Arithmetic explores the idea that there is no such thing as arithmetical ability only arithmetical abilities The book discusses several important components of arithmetic from counting principles and procedures to arithmetical estimation alongside emotional and cognitive components of arithmetical performance This edition has been extensively revised to include the latest research including recent cross cultural and cross linguistic research the development of new interventions for children with difficulties and studies of early foundations of mathematical abilities Drawing on developmental educational cognitive and neuropsychological studies this book will be essential reading for all researchers of mathematical cognition It will also be of interest to educators and other professionals working within individuals with arithmetic deficits **Resources in Education** , 1997 *Acquisition of Complex Arithmetic Skills and Higher-Order Mathematics Concepts* David C. Geary, Daniel B. Berch, Robert Ochsendorf, Kathleen Mann Koepke, 2017-08-01 Acquisition of Complex Arithmetic Skills and Higher Order Mathematics Concepts focuses on typical and atypical learning of complex arithmetic skills and higher order math concepts As part of the series Mathematical Cognition and Learning this volume covers recent advances in the understanding of children s developing competencies with whole number arithmetic fractions and rational numbers Each chapter covers these topics from multiple perspectives including genetic disorders cognition instruction and neural networks Covers innovative measures and recent methodological advances in mathematical thinking and learning Contains contributions that improve instruction and education in these domains Informs policy aimed at increasing the level of mathematical proficiency in the general public *Students at Risk of School Failure* José Jesús Gázquez, José Carlos Núñez, 2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure identifying student and context variables In spite of the fact that there is currently little doubt about how one learns and how to teach in some countries of the developed world there is still there is a high rate of school failure Although the term school failure is a very complex construct insofar as its causes consequences

and development from the field of educational psychology the construct student engagement has recently gained special interest in an attempt to deal with the serious problem of school failure School engagement builds on the anatomy of the students involvement in school and describes their feelings behaviors and thoughts about their school experiences So engagement is an important component of students school experience with a close relationship to achievement and school failure Children who self set academic goals attend school regularly and on time behave well in class complete their homework and study at home are likely to interact adequately with the school social and physical environments and perform well in school In contrast children who miss school are more likely to display disruptive behaviors in class miss homework frequently exhibit violent behaviors on the playground fail subjects be retained and if the behaviors persist quit school Moreover engagement should also be considered as an important school outcome eliciting more or less supportive reactions from educators For example children who display school engaged behaviors are likely to receive motivational and instructional support from their teachers The opposite may also be true But what makes student engage more or less The relevant literature indicates that personal variables e g sensory motor neurodevelopmental cognitive motivational emotional behavior problems learning difficulties addictions social and or cultural variables e g negative family conditions child abuse cultural deprivation ethnic conditions immigration or school variables e g coexistence at school bullying cyberbullying may concurrently hinder engagement preventing the student from acquiring the learnings in the same conditions as the rest of the classmates

Taylor, Susan Bobbitt Nolen, 2022 This book addresses a problem that affects the work of all educators how traditional methods of assessment undermine the capacity of schools to serve students with diverse cultural and social backgrounds and identities Anchored in a commonsense notion of validity this book explains how current K 12

assessment practices are grounded in the language experiences and values of the dominant White culture. It presents a timely review of research on bias in classroom and large scale assessments as well as research on how students' level of engagement influences their performances. The author recommends practices that can improve the validity of students' assessment performances by minimizing sources of bias using culturally responsive assessment tools and adopting strategies likely to increase students' engagement with assessment tasks. This practical resource provides subject specific approaches for improving the cultural and social relevance of assessment tools and offers guidance for evaluating existing assessment instruments for bias, language complexity and accessibility issues.

Book Features:

- Research based recommendations for improving assessment fairness, validity and cultural social relevance.
- Practices that have been shown to improve the effectiveness of classroom assessments in supporting student learning.
- Concrete examples of how to create culturally relevant assessment tasks that target valued learning goals in language arts, mathematics, social studies and science classrooms.
- Appendixes that provide tools educators can use to improve grading practices.
