(Original Text: Letter 1 - Chapter 3)

1. Frankenstein is a **frame story**; the story of Frankenstein is actually told through the diary of Robert Walton. Who is Robert Walton? How does he encounter Victor Frankenstein? Why does Frankenstein want to tell Walton his life story?

An explorer and Margaret's brother. Victor's sled floated to them in the night and they saved him because he was in bad shape. Victor tells his life story so Walton doesn't get hurt looking for answers like he did.

2. Who is Henry Clerval? Who is Elizabeth Lavenza?

Elizabeth is his sister. She was the biological daughter of a nobleman who passed. Henry is Victor's close friend that he met in Geneva.

3. Why is it important when lightning strikes the tree?

It inspires Walton's interests in natural science

4. What request does Victor's mother make when she gets sick?

She wanted her children to marry each other and wanted Elizabeth to be a mother to her younger children.

5. When Victor goes to Ingolstadt, who are his two professors? What is his reaction with each one?

6. Describe Victor's life during the time he is working on his big experiment?

Since he spent so much time alone, he began to get sick and nervous and lost his ability to speak.

7. Describe the night Victor finishes his experiment. How does his mindset change before and after his work is completed?

He believed that his dream had become a nightmare because what he created was a nightmare. He couldn't look at him because he was terrified.

Mapping Multiple Literacies Diana Masny, David R. Cole, 2012-06-14 Mapping Multiple Literacies brings together the latest theory and research in the fields of literacy study and European philosophy. Multiple Literacies Theory (MLT) and the philosophical work of Gilles Deleuze. It frames the process of becoming literate as a fluid process involving multiple modes of presentation and explains these processes in terms of making maps of our social lives and ways of doing things together. For Deleuze, language acquisition is a social activity of which we are a part, but only one part amongst many others. Masny and Cole draw on Deleuze's thinking to expand the repertoires of literacy research and understanding. They outline how we can understand literacy as a social activity and map the ways in which becoming literate may take hold and transform communities. The chapters in this book weave together theory, data, and practice to open up a creative new area of literacy studies and to provoke vigorous debate about the sociology of literacy.
