# AP Human Geography - Chapter 18 FRQ

Define the concept of a megacity. - correct answers - population of over 10 mil

- exerts influence regionally and/or ubiquitously
- includes world's largest cities

Explain the concept of a world city using either economic or political characteristics. - correct answers - world cities are cities that exert influence far beyond national boundaries

- characteristics/examples: all world cities are media hubs and financial centers with influential stock exchanges, banks, corporate headquarters

Compare the distribution of megacities to world cities. - correct answers Megacities are classified by size (population over 10 mil) whereas world cities' statuses are based off of economic/political factors.

- most megacities reside in developing countries.
- conversely, world cities are more often found in the developed world (think of socioeconomic characteristics).

Explain an economic reason why this city has become such a large city. - correct answers Megacities were once found at the centers of large empires in powerful countries -- an example could include Tokyo, Japan.

Explain an environmental/social problem a megacity faces. - correct answers Social problems - contention between ethnic groups, joblessness, lack of infrastructure, inadequate housing

Environmental problems - severe air pollution (example: Mexico City)

Explain a political or social reason why suburbanization has occurred so prevalently in the U.S. since the 1950's. - correct answers Suburbanization became prevalent after WWII, ensuing with economic expansion, a more car-centered lifestyle, and new systems of highways to commute from home to work (to name a few). Generous mortgage loans given by the FHA allowed military families to live on their own residential property in a suburban community.
