Farwell,Nancy L. Teger,2012-06-11 This book presents a curricular framework for students grades 6 12 that school librarians and teachers can use collaboratively to enhance reading skill development promote

literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork

Supporting Reading Grades 6-12: A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.

Teaching Young Adult Literature Today Judith A. Hayn, Jeffrey S. Kaplan, 2012-03-15

Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads: smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects such as the absence of lesbian, gay, bisexual, transgender, and questioning (LGBTQ) young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen.

Social Justice, the Common Core, and Closing the Instructional Gap Janet C. Richards, Kristien Zenkov, 2015-10-01

There is little doubt that the Common Core State Standards (CCSS) are a controversial entity. They are provocative for the way in which they have been developed, for the ways they are being implemented, and evaluated for their content, and for their failure to explicitly consider the needs, interests, and histories of diverse populations. While the CCSS continue to be problematized by critics around the country, including the editors of this volume, it is evident our nation is moving toward some would argue we have arrived at: a national set of standards and/or a national curriculum. This text will be an important volume for multiple audiences, in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula. It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice-oriented CCSS-focused curricula that empower diverse learners and their teachers.

Social Justice, the Common Core, and Closing the Instructional Gap will consist of chapters by classroom teachers and university scholars who portray honest, engaging first-person accounts

of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards. These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments. They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world. **Food and Nutrition**

Catalano, 2015-09-28 If you are a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections is for you. While there are many publications on the Common Core for school librarians and K-12 educators no such literature exists for curriculum librarians at the post secondary level. This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS. The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games textbooks children's literature primary sources counseling and nonfiction. Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials. Creating the Character Costume Cheralyn

Lambeth, 2016-11-25 Many beginning and hobbyist costumers believe that professional costume prop builders have unlimited and specialized resources with which to ply their craft. Actually the pros create things in much the same way that hobbyists do working as resourcefully and creatively as possible with a limited budget. Creating the Character Costume dives into these methods to showcase how to achieve expert looks with limited means and lots of creativity. Part One explores tools materials and construction methods. **Captivating Classrooms** Nicholas D. Young, Christine N. Michael, Jennifer A.

Smolinski, 2018-11-23 Captivating Classrooms explores the specific role that student engagement plays in education. It argues that there are myriad factors that undergird meaningful student learning and participation such as motivation exciting teaching strategies reinventing literacy instruction and authentic assessment. This book is an extremely valuable handbook for school leaders teachers and support staff as well as for parents of PK-12 students aspiring educators and higher

education faculty who prepare pre service teachers and administrators This is a must read for those who are committed to helping all students find their purpose and passion in education
