**Joseon Royal Court Culture** Myöng-ho Sin,2004      *Recording State Rites in Words and Images* Yi Song-mi,2024-03-05  
Recording State Rites in Words and Images provides an engaging and in depth exploration of the large corpus of court statutes compiled during the Joseon dynasty of Korea The term uigwe commonly translated as royal protocols is the name given to the collection of nearly four thousand books that were commissioned and written to document the customs rituals rules protocols and ceremonial practices of the Joseon dynasty In this generously illustrated book Yi Song mi introduces readers to the rich and varied documentary tradition embodied in the uigwe sharing invaluable insights into time honored court customs through text and images and analyzing changes in ritual practice over time      *Envisioning the Empress: The Lives and Images of Japanese Imperial Women, 1868-1952* Alison J. Miller,2024-12-02 Envisioning the Empress illuminates dynamic and powerful empresses who impacted not only women in their own time but whose influence extended to later generations of royalty creating a greater role for imperial women and elevating the status of women s roles at a crucial juncture in Japanese history The central focus of this book is visual monarchy exploring how the empress biographies were primarily expressed in visual culture and how their images worked in support of Japan s imperial policies in the late nineteenth and early twentieth centuries The book begins with a brief overview of premodern and modern imperial women to orient the reader In each chapter different media audiences and distribution channels for constructing the narrative of feminine imperial power in Japan are addressed alongside biographical information It is argued that the ultimate purpose of all of these images was to elevate the empress and promote her image as a conventional role model for modern women but one with enough celebrity cache to maintain popularity The images of the modern empresses as distributed by the Imperial Household Agency strike a balance between propaganda and popular media noble philanthropist and upper middle class role model celebrity and mother of the nation The modern empress image was crafted to be both exalted and approachable and worked to establish individual biographies while simultaneously establishing the position of the empress as timeless in the public eye Envisioning the Empress introduces students of royal studies as well as modern Japanese history and art history to this fascinating element of the history of monarchy and women s history more broadly      *A Companion to Korean Art* J. **King Chŏngjo, an Enlightened Despot in Early Modern Korea** Christopher Lovins,2019-03-25 Were the countries of Europe the only ones that were early modern Was Asia s early modernity cut short by colonialism Scholars examining early modern Eurasia have not yet fully explored the relationships between absolute rule and political modernization in the highly contested early modern world Using a comparative perspective that places Ch ngjo king of Korea from 1776 to 1800 in context with other Korean kings and with contemporary Chinese and European rulers Christopher Lovins examines the shifting balance of power in Korea in favor

of the crown at the expense of the aristocracy during the early modern period This book is the first to analyze in English the recently discovered collection of 297 private letters written by Ch'ngjo himself These letters were a vital channel of communication outside of official court historians scrutiny since private meetings between the king and his ministers were forbidden by custom Royal politics played out in an arena of subtle communication with court officials trying to read the king's unstated elliptically hinted at intentions and the king trying to suggest what he wanted done while maintaining plausible deniability Through close analysis of both official records and private letters including Ch'ngjo's secret letters Lovins shows that in contrast to previous assumptions the late eighteenth century Korean monarchs were not weak and ineffective but instead were in the process of building an absolutist polity
