Superfund and Mining Megasites National Research Council, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Committee on Superfund Site Assessment and Remediation in the Coeur d' Alene River Basin, 2005-12-29 For more than 100 years the Coeur d Alene River Basin has been known as The Silver Valley for being one of the most productive silver lead and zinc mining areas in the United States Over time high levels of metals including lead arsenic cadmium and zinc were discovered in the local environment and elevated blood lead levels were found in children in communities near the metal refining and smelter complex In 1983 the U S Environmental Protection Agency EPA listed a 21 square mile mining area in northern Idaho as a Superfund site EPA extended those boundaries in 1998 to include areas throughout the 1500 square mile area Coeur d Alene River Basin project area Under Superfund EPA has developed a plan to clean up the contaminated area that will cost an estimated 359 million over 3 decades and this effort is only the first step in the cleanup process Superfund and Mining Megasites Lessons from Coeur d Alene River Basin evaluates the issues and concerns that have been raised regarding EPA s decisions about cleaning up the area The scientific and technical practices used by EPA to make decisions about human health risks at the Coeur d Alene River Basin Superfund site are generally sound however there are substantial concerns regarding environmental protection decisions particularly dealing with the effectiveness of long term plans

Using Graywater and Stormwater to Enhance Local Water Supplies National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Water Science and Technology Board, Committee on the Beneficial Use of Graywater and Stormwater: An Assessment of Risks, Costs, and Benefits, 2016-06-30 Chronic and episodic water shortages are becoming common in many regions of the United States and population growth in water scarce regions further compounds the challenges Increasingly alternative water sources such as graywater untreated wastewater that does not include water from the toilet but generally includes water from bathroom sinks showers bathtubs clothes washers and laundry sinks and stormwater water from rainfall or snow that can be measured downstream in a pipe culvert or stream shortly after the precipitation event are being viewed as resources to supplement scarce water supplies rather than as waste to be discharged as rapidly as possible Graywater and stormwater can serve a range of non potable uses including irrigation toilet flushing washing and cooling although treatment may be needed Stormwater may also be used to recharge groundwater which may ultimately be tapped for potable use In addition to providing additional sources of local water supply harvesting stormwater has many potential benefits including energy savings pollution prevention and reducing the impacts of urban development on urban streams Similarly the reuse of graywater can enhance water supply reliability and extend the capacity of existing wastewater systems in growing cities

Despite the benefits of using local alternative water sources to address water demands many questions remain that have limited the broader application of graywater and stormwater capture and use In particular limited information is available on the costs benefits and risks of these projects and beyond the simplest applications many state and local public health agencies have not developed regulatory frameworks for full use of these local water resources To address these issues Using Graywater and Stormwater to Enhance Local Water Supplies analyzes the risks costs and benefits on various uses of graywater and stormwater This report examines technical economic regulatory and social issues associated with graywater and stormwater capture for a range of uses including non potable urban uses irrigation and groundwater recharge Using Graywater and Stormwater to Enhance Local Water Supplies considers the quality and suitability of water for reuse treatment and storage technologies and human health and environmental risks of water reuse The findings and recommendations of this report will be valuable for water managers citizens of states under a current drought and local and state health and environmental agencies

Education Romuald Normand,Jean-Louis Derouet,2016-06-10 A European Politics of Education proposes a sociology of

education establishing connections between empirical data coming from European scale comparative surveys normative assumptions structuring actors representations and interpretative judgements and a specific focus on Lifelong Learning policy areas It invites readers to think about the place of standards expertise and calculations in the European space from a common perspective supported by a tradition of critical sociology and European political studies The book Addresses an important agenda how the policies and politics of supranational Europe are making a European educational space Contains a response to the emergence of new epistemic governance and instruments at European level Contains contributions from the EU and the UK which give a comprehensive selection of perspectives and analysis of the field as it concerns Europe The complexity of the contemporary European education policy space is addressed here with new lines of inquiry as well as a reflexive outlook on standardization policy making and actor engagement Students and researchers of European policy studies education policy analysts and theorists will all be particularly interested readers *Deep Violence* Joanna

Bourke, 2015-03-01 2014 marks the 100th anniversary of the declaration of the First World War and with it comes a deluge of books documentaries feature films and radio programs We will hear a great deal about the horror of the battlefield Bourke acknowledges wider truths war is unending and violence is deeply entrenched in our society But it doesn't have to be this way This book equips readers with an understanding of the history culture and politics of warfare in order to interrogate and resist an increasingly violent world Wounding the World investigates the ways that violence and war have become internalized in contemporary human consciousness in everything from the way we speak to the way our children play with one another to the way that we ascribe social characteristics to our guns and other weapons With a remarkable depth of insight Bourke argues for a radical overhaul of our collective stance towards militarism from one that simply aims to reduce violence against people to one that would eradicate all violence Her message is judicious and vital knowledge about weapons and the violence they bring has simply become too important to cast aside or leave to the experts Appendix, Budget of the United States Government, Fiscal Year 2012 Office of Management and Budget (U.S.), 2011-02-14 Contains detailed information on the various appropriations and funds that constitute the budget and is designed primarily for the use of the Appropriations Committee The Appendix contains more detailed financial information on individual programs and appropriation accounts than any of the other budget documents It includes for each agency the proposed text of appropriations language budget schedules for each account new legislative proposals and explanations of the work to be performed and the funds needed and proposed general provisions applicable to the appropriations of entire agencies or group of agencies Information is also provided on certain activities whose outlays are not part of the budget totals

Permission to Feel Marc Brackett, Ph.D., 2019-09-03 The mental well being of children and adults is shockingly poor Marc Brackett author of Permission to Feel knows why And he knows what we can do We have a crisis on our hands and its victims are our children Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale

Center for Emotional Intelligence In his 25 years as an emotion scientist he has developed a remarkably effective plan to improve the lives of children and adults a blueprint for understanding our emotions and using them wisely so that they help rather than hinder our success and well being The core of his approach is a legacy from his childhood from an astute uncle who gave him permission to feel He was the first adult who managed to see Marc listen to him and recognize the suffering bullying and abuse he d endured And that was the beginning of Marc s awareness that what he was going through was temporary He wasn t alone he wasn t stuck on a timeline and he wasn t wrong to feel scared isolated and angry Now best of all he could do something about it In the decades since Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well being His prescription for healthy children and their parents teachers and schools is a system called RULER a high impact and fast effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it RULER has been proven to reduce stress and burnout improve school climate and enhance academic achievement This book is the culmination of Marc s development of RULER and his way to share the strategies and skills with readers around the world It is tested and it works This book combines rigor science passion and inspiration in equal parts Too many children and adults are suffering they are ashamed of their feelings and emotionally unskilled but they don t have to be Marc Brackett s life mission is to reverse this course and this book can show you how

The Wretched Atom Jacob Darwin Hamblin,2021 Written by a prize winning historian The Wretched Atom is an authoritative history and a sweeping indictment of so called peaceful nuclear technologies in the countries of the developing world

The Politics of Nuclear Waste E. William Colglazier,2013-10-22 The Politics of Nuclear Waste covers several issues concerning nuclear waste such as management disposal and its impact on politics Consisting of eight chapters the book covers several aspects of the politics of nuclear waste The opening chapter discusses nuclear waste management in the United States while the next chapter reviews a cross national perspective on the politics of nuclear waste Chapter 3 talks about congressional and executive branch factions in nuclear waste management policy while Chapter 4 discusses federal state conflict in nuclear waste management Chapter 5 tackles consultation and concurrence and Chapter 6 deals with public participation Chapter seven aims to answer When does consultation become co optation and When does information become propaganda The last chapter discusses prospects for consensus This book will be of great interest to those concerned with the implication of nuclear waste management for the political climate

The Province of All Mankind Stephen Buono,2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite waging a totalizing Cold War the United States achieved stunning diplomatic successes

that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon

The Politics and Crisis Management of Animal Health Security John Connolly, 2016-03-09 The Politics and Crisis Management of Animal Health Security addresses the 2001 foot and mouth epidemic in the United Kingdom one of if not the most significant crises ever to face the UK farming industry Underpinned by interviews with politicians and bureaucrats and with significant primary documentary analysis the book shows that the crisis was a critical juncture in how disease outbreaks have been planned and managed ever since The author explores how this event affected policy and governance arrangements for managing subsequent disease induced threats such as avian influenza and bovine TB and concludes by considering the temporality of lesson learning by the UK government including the current and future challenges associated with managing incongruent risks e g flood protection swine flu and Ebola This book provides students of public policy and administration with a significant illustration of how key concepts and analytical lenses from public policy can be applied to the study of the contours of practical policy change
