Capital Market Interview Questions and Answers - English Navneet Singh, Below is a curated list of Capital Market interview questions along with sample answers to help you prepare effectively Let me know if you d like a more tailored set of questions based on your expertise or specific

role you're targeting

- 1 What are Capital Markets
 Question Explain the role of capital markets in the economy
 Answer Capital markets are financial markets where savings and investments are channelled between suppliers and those in need of capital. They enable businesses to raise funds by issuing equity or debt and allow investors to allocate their capital to productive ventures. They are crucial for fostering economic growth by facilitating efficient capital allocation.
- 2 What are the key types of capital markets
 Question Differentiate between primary and secondary capital markets
 Answer Primary Market Where new securities are issued and sold to investors for the first time e.g. IPOs Initial Public Offerings. Secondary Market Where existing securities are traded among investors such as on stock exchanges like NYSE or NASDAQ.
- 3 What is the difference between the money market and the capital market
 Answer Money Market Deals with short term debt instruments less than a year like Treasury bills, commercial paper and certificates of deposit. Capital Market Focuses on long term instruments like stocks, bonds and debentures.
- 4 What is the role of a stock exchange
 Answer A stock exchange is a platform for buying and selling securities. It ensures transparency, liquidity, price discovery and protection for investors through regulatory frameworks.
- 5 Explain the difference between equity financing and debt financing
 Answer Equity Financing Raising capital by selling ownership stakes in the form of shares. No repayment obligation but dilutes ownership. Debt Financing Borrowing money through loans or bonds. Must be repaid with interest but retains ownership.
- 6 What is an IPO and how does it work
 Answer An Initial Public Offering (IPO) is when a private company sells its shares to the public for the first time to raise capital. The process involves underwriting, regulatory approvals, pricing and listing the shares on a stock exchange.
- 7 What are derivatives and why are they used in capital markets
 Answer Derivatives are financial instruments whose value is derived from an underlying asset e.g. stocks, commodities or currencies. They are used for hedging, speculation and arbitrage.
- 8 How do interest rates impact the capital markets
 Answer Interest rates significantly influence capital markets. Higher rates typically reduce stock prices as borrowing costs increase and bond yields become more attractive. Conversely, lower rates encourage investment and higher equity valuations.
- 9 What are the key financial ratios investors consider in capital markets
 Answer P/E Ratio Price to Earnings Measures stock valuation. Debt to Equity Ratio Indicates financial leverage. ROE Return on Equity Shows profitability relative to equity. Current Ratio Measures liquidity.
- 10 Can you explain the concept of market efficiency
 Answer Market efficiency refers to how well market prices reflect all available information. Efficient Market Hypothesis (EMH) suggests it's impossible to beat the market consistently because prices always incorporate all known information.
- 11 What are the different types of risks in capital markets
 Answer Market Risk Fluctuations in market prices. Credit Risk Default by borrowers or bond issuers. Liquidity Risk Difficulty in selling assets quickly. Interest Rate Risk Changes in interest rates affecting securities.
- 12 How does a bond's price relate to interest rates
 Answer Bond prices and interest rates have an inverse relationship. When rates rise, bond prices fall, and when rates drop, bond prices increase. This is because the fixed coupon payments become less attractive compared to new issues.
- 13 What is the role of credit rating agencies in capital markets

Answer Credit rating agencies assess the creditworthiness of borrowers or debt instruments Ratings like AAA BBB etc provide investors with a measure of default risk influencing borrowing costs and investment decisions 14 What is portfolio diversification and why is it important Answer Diversification is the practice of spreading investments across various asset classes sectors or geographies to reduce risk It minimizes the impact of poor performance in any single investment 15 Explain the concept of arbitrage Answer Arbitrage is the simultaneous purchase and sale of an asset in different markets to profit from price discrepancies It ensures price consistency across markets and is a risk free strategy in theory 16 What are the major capital market instruments Answer Equity Instruments Common and preferred stocks Debt Instruments Bonds debentures and loans Hybrid Instruments Convertible bonds and preference shares 17 What is a financial bubble and how does it impact capital markets Answer A bubble occurs when asset prices inflate significantly beyond their intrinsic value due to speculative demand When the bubble bursts it leads to sharp price declines causing market instability 18 How are foreign exchange markets related to capital markets Answer Foreign exchange markets interact with capital markets through cross border investments international trade and currency risks that affect foreign denominated securities 19 What is the significance of regulatory bodies in capital markets Answer Regulatory bodies like the SEC U S or SEBI India ensure transparency protect investors prevent fraud and maintain fair practices in capital markets 20 What is your understanding of the recent trends in capital markets Answer Be prepared to discuss topics like the rise of ESG Environmental Social and Governance investing fintech s impact increased use of AI for trading and shifts in market dynamics due to geopolitical events
