Malign Velocities Accelerationism And Capitalism:

Malign Velocities Benjamin Noys, 2014-10-31 We are told our lives are too fast subject to the accelerating demand that we innovate more work more enjoy more produce more and consume more That s one familiar story Another stranger story is told here of those who think we haven t gone fast enough Instead of rejecting the increasing tempo of capitalist production they argue that we should embrace and accelerate it Rejecting this conclusion Malign Velocities tracks this accelerationism as the symptom of the misery and pain of labour under capitalism Retracing a series of historical moments of accelerationism the Italian Futurism communist accelerationism after the Russian Revolution the cyberpunk phuturism of the 90s and 00s the unconscious fantasies of our integration with machines the apocalyptic accelerationism of the post 2008 moment of crisis and the terminal moment of negative accelerationism suggests the pleasures and pains of speed signal the need to disengage negate and develop a new politics that truly challenges the supposed pleasures of speed *The Meaning of Trump* Brian Francis Culkin, 2018-06-29 The election of Donald Trump was a shattering moment to the political sensibilities of America immediately sending the country into a frenzy of commentary critique and a never ending media coverage that has bordered on the absurd But the question still remains what does it all mean The Meaning of Trump is an ideological critique that sees the election of Donald Trump as a completely natural progression to the general trajectory of digitized technologies neoliberalism and a new breed of financialized capitalism destructive global forces that know no party affiliation or national boundary Although Donald Trump is undoubtedly the symptom that has exploded to the surface after nearly four decades of failed policies and broken promises by both Republicans and Democrats alike his election can also be seen as an existential fork in the road for both the United States and even humanity itself What path is taken still remains to be seen The Circle of the Snake Grafton Tanner, 2020-12-11 Shocked by 9 11 the Great Recession digital anxiety and ecological collapse the West suffers from nostalgia People everywhere yearn for a utopian version of the past that never existed Desperate for relief many long to escape from the present Some will stop at nothing to achieve it In his essential new book Grafton Tanner author of Babbling Corpse Vaporwave and the Commodification of Ghosts argues that our nostalgia today is partly a consequence of the attention economy At a time when historical literacy is crucial and old prejudices are percolating into the present Big Tech s predictive algorithms are locking us into nostalgic feedback loops The result is a precarious society with its gaze fixed on the good old days Spanning from the ancient Sophists to Black Mirror The Circle of the Snake is at once a reckoning with the myth of digital utopia and an incisive analysis of nostalgia as a weapon to spread fascism **The British State** Chris Nineham, 2019-10-25 What happens if a radical government gets elected in Britain How will the banks the civil servants the media and the military react Is the idea of a British coup far fetched How can the left prepare Chris Nineham addresses these questions by looking behind the myths at the reality of two hundred years of British state rule He brings us a warning from history Don t be fooled again read this book Psy-Complex in Question Ian Parker, 2018-01-26 Psy Complex in

Question traces a series of key debates in and against the psy complex through critical reviews of twenty five key texts over the last twenty five years with an emphasis on recent critical psychological psychoanalytic and critical social theory contributions to how we think about human agency and subjectivity The reviews together set out the unfolding context for the debate and situate the texts under discussion in the cross cutting debates that define critical psychology today It also provides an accessible introduction to how psychoanalysis and social theory with a particular focus on the work of Jacques Lacan and Slavoj i ek bears upon work carried out by a new generation of researchers Ian Parker s book is written from the perspective of a critical insider to the discipline of psychology psychoanalysis and social theory and it will serve as a primer for those new to the ideas searching for compass points and radical arguments as well as examples of how to write and how not to write a book review

Human Rights - Illusory Freedom Luke Gittos,2019-02-22 A progressive argument for repealing the Human Rights Act Contrary to contemporary panic around human rights repeal Human Rights Illusory Freedom puts a progressive case against the Human Rights Act It describes how human rights arose as a new language for western governments following the collapse in their collective authority in the aftermath of World War 2 and shows how the UK Human Rights Act has presided over a catastrophic loss of freedom which continued a process which began with the Tory party in the 1970s Human Rights Illusory Freedom makes a positive case for restoring control over our traditional freedoms to the electorate and away from unaccountable Judges in the UK Courts and the European Court of Human Rights **The Blood-Stained Poppy** Kevin Rooney,James Heartfield,2019-10-25 For a century the war dead have been honoured with Red Poppies on Remembrance Day The Poppy is part of a cult of death that celebrates the slaughter of the Great War of 1914 18 The Poppy and the Remembrance Day ceremony turn grief to sanctify war Here we expose the truth about the First World War and about the century of militarism that followed The war was not fought to make the world safe but out of hatred and imperial greed In the hundred years since the end of the First World War Britain s military ventures have continued to wreak havoc across the world The Poppy is a symbol of British militarism not a badge of peace **Time's Lie** Leo

Cookman,2020-05-01 Why are facts and statistics disparaged and dismissed now more than ever Why do people trust fake news If we have had enough of experts who should we listen to Rather than the possible collapse of modern society could this be an opportunity to look at not just society but our own lives in a different way Whoever controls the narrative is the one who is in control Time s Lie analyses the history the science and the philosophy behind the creation of linear stories or Narrativisation as this book dubs it **Hothouse Utopia** Ryan Gunderson,2021-10-29 What is to be done when the future s already ablaze With the international spread of right wing populism widening inequalities precarious forms of labor becoming normative surveillance capitalism and a worsening ecological crisis the future is bleak One issue in particular the likelihood of catastrophic climate change coupled with the lack of a global movement with the organization and vision to effectively challenge our suicidal social order yields the crushing awareness that future generations will be trapped in

prehistory one in which humanity continues to be dominated by its own creations instead of shaping the historical process in line with reason Expanding upon the ideas of Theodor W Adorno Ernst Bloch Lucien Goldmann and others Ryan Gunderson examines the modes of action and thought through which we react to the likelihood of a catastrophic future in ways that reproduce instead of challenge the status quo and how we can instead productively sustain the search for a better world against all odds

Made in Brooklyn Amanda Wasielewski, 2018-06-29 Made in Brooklyn provides a belated critique of the Maker Movement from its origins in the nineteenth century to its impact on labor and its entanglement in the neoliberal economic model of the tech industry This critique is rooted in a case study of one neighborhood in Brooklyn where artists occupy former factory buildings as makers Although the Maker Movement promises to revitalize the city and its dying industrial infrastructure by remaking these areas as centers of small scale production it often falls short of its utopian ideals Through her analysis of the Maker Movement the author addresses broader questions around the nature of artistic work after the internet as well as what the term hipster means in the context of youth culture gentrification labor and the influence of the internet Part history part ethnography this book is an attempt to provide a unified analysis of how the tech industry has infiltrated artistic practice and urban space
