examines education for students and working librarians in cataloging and bibliographic control emphasizing history context the state of the art at present and suggested future directions A liberal dose of visual aids charts tables etc makes accessing the information quick and easy From the editor The education of catalogers has swung pendulum like from on the job training to graduate education and back again The place of cataloging in the library school curriculum has swung from one of near pre eminence to one of near extinction and has begun to swing back again The durability of education for cataloging has swung from In getting your degree you will learn everything you need to know in your career to You will have to engage in continuing education throughout your career beginning virtually as soon as you have your degree Making informed decisions about how and how much cataloging education is to be provided is full of pitfalls some of which the profession has fallen into already What is needed now is a reconsideration of how education for cataloging and bibliographic control is provided Education for Cataloging and the Organization of Information Pitfalls and the Pendulum addresses four main areas the ways professionals perceive the place nature and necessity of cataloging education the professional demographic and academic context within which cataloging education is provided education regarding special types of materials and special aspects of cataloging and alternatives to traditional modes of education for cataloging including distance education online mentoring Web based instruction continuing education training for and via cooperative projects the role of the community of catalogers in the continuing education of those who provide intellectual access to the world of information and much more **New York City Best Books on,1939** The Road to Missional (Shapevine) Michael Frost,2011-10-01 It has recently become acceptable and even fashionable to refer to one s church as missional But many churches misunderstand the concept thinking of going missional as simply being a necessary add on to church as usual This domestication of what is actually a very bold paradigm shift makes missional nothing more than one more trick to see church growth With a light hand and a pastoral spirit Michael Frost points out how church practitioners are not quite there yet He reestablishes the ground rules redefines the terms accurately and insists that the true prophetic essence of being missional comes through undiluted This clear corrective will take ministry leaders from not missional yet to well on their way **Official Gazette of the United States Patent and Trademark Office ,1991**
