This is the ultimate guide to the history, science, and cultural influence of coffee, according to coffee aficionado and master storyteller Tristan Stephenson. You'll learn how to roast coffee at home in the fascinating Roasting section, before delving into the Science and Flavour of Coffee and finding out how sweetness, bitterness, acidity, and aroma all come together. You'll then get to grips with grinding, before learning about the history of the espresso machine and how to make the perfect espresso in the Espresso chapter. Discover how espresso and milk are a match made in heaven, yielding such treasures as the Latte, Cappuccino, Flat white, and Macchiato. You'll also find out how to pour your own Latte art. Other Brewing Methods features step-by-step guides to classic brewing techniques to bring the coffee to your table, from a Moka pot and a French press to Aeropress and Siphon brewing. Finally, why not treat yourself to one of Tristan's expertly concocted recipes? [Making Craft Beer at Home](#)

Gretchen Schmidhausler, 2014-10-10 Craft beer has in recent years seen an unprecedented surge in popularity across the United States and Canada. Tired of mass-produced beers, drinkers have gravitated toward handcrafted small batch and often local beers, and many devotees have even begun to brew their own. This comprehensive book, written by an experienced craft brewer, provides background, discusses the ingredients employed, explains what equipment is required, and details the step-by-step how-to of the brewing process. A perfect introduction to the world of craft beer, *Making Craft Beer at Home* demystifies the art of home brewing while providing an historical perspective on America's love affair with the drink and shows why this often exquisite refreshment has taken its place at the table alongside fine wines and liquors.
