Forensic Pathology Reviews is a new April 2004 and ambitious series published by Humana Press and edited by Michael Tsokos MD of the Institute of Legal Medicine at the University of Hamburg It is a part of an explosive growth in forensic publications that is difficult not to link to the recent interest from the spate of television shows or forensics However the introduction to the series correctly refers to a significant expansion of scientific progress in the forensic sciences and states The Forensics Pathology Reviews knowledge on special topics in the field focusing closely on the dynamic and rapidly growing evolution of medical science and law The introduction further states that the series is intended to take a problem oriented approach and provide comprehensive and well documented reviews of the international literature with insights into new diagnostic techniques Forensic Pathology Reviews Vol 2 Michael Tsokos,2007-10-28 Cutting edge accounts of special topics from various fields of forensic pathology and death scene investigation The authors explore new avenues for analyzing the pathology of death from starvation child neglect head injuries inflicted by glass bottles the clinical and pathological features of primary cerebral neoplasms obesity as it is relevant to the forensic pathologist and infant and early childhood asphyxial death Other areas of interest covered include suicide viral myocarditis in sudden death cases curious death scene phenomena hiding covering and undressing forensic entomology the interpretation of toxicological findings anabolic androgenic steroid abuse and autopsy findings of subendocardial hemorrhages Spitz and Fisher's Medicolegal Investigation of Death Werner U. Spitz,Francisco J. Diaz,2020-07-20 This is not just a new edition but a different book emphasizing trauma and wound analysis The addition of a new co editor Dr Francisco J Diaz has brought new ideas to this fifth edition A chapter by Doctor Jan Leetsma world renowned neuropathologist has also been included Doctor Leetsma s vast experience in forensic neuropathology will certainly enhance this book Several chapters have been eliminated that are no longer applicable or which are adequately covered in other publications Over time in the past 48 years since this book was first published Medicolegal Investigation of Death has been dubbed the Bible of Forensic Pathology The fifth edition includes over 600 case reports and hundreds of color photographs The cases are from files the authors have personally handled According to author Spitz We have found many times analysis of small wounds will lead to understanding of a giant case like the case in Hawaii where a body was found under a full size van with a thread mark on the cheek consistent with having been

hit with a black pipe used for gas lines that were found in a bucket in the rear of the van As it turned out this was a murder not an accident The book is full of such cases This book will help you understand the details of injuries and how a person was injured and how they died and how these injuries perhaps at first blush possibly seemingly insignificant can shed new light on a case Medicolegal Investigation of Death now embraces not just basic forensic pathology but also includes death during restraint conscious pain and suffering and new concepts related to the interpretation of injuries by detailed wound analysis The continued use of simple non technical terminology makes this book a truly unique treatise and source of information
