

Dihybrid Crosses:

Genetic Crosses that Involve 2 Traits - Floppy Eared Bunnies

In rabbits, black hair is dominant to brown hair. Also in rabbits, long straight ears are dominant to floppy ears.

The letters represent the genotypes and phenotypes of the rabbits:

BB = black nose | Bb = black nose | bb = pink nose

EE = long ears | Ee = long ears | ee = floppy ears

3. A male rabbit with the genotype BBee is crossed with a female rabbit with the genotype bbEe. The square is set up below. Fill it out and determine the phenotypes and proportions in the offspring.

BBee x bbEe

BbEe	BbEe	BbEe	BbEe
BbEe	BbEe	BbEe	BbEe
BbEe	BbEe	BbEe	BbEe

Solving Problems in Genetics Richard Kowles,2013-12-01 The principle objective of this book is to help undergraduate

students in the analysis of genetic problems Many students have a great deal of difficulty doing genetic analysis and the book will be useful regardless of which genetics text is being used Most texts provide some kinds of problems and answers few if any however show the students how to actually solve the problem Often the student has no idea how the answer was derived This work emphasizes solutions not just answers The strategy is to provide the student with the essential steps and the reasoning involved in conducting the analysis Throughout the book an attempt is made to present a balanced account of genetics Topics therefore center about Mendelian cytogenetic molecular quantitative and population genetics with a few more specialized areas Whenever possible the student is provided with the appropriate basic statistics necessary to make some of the analyses The book also builds on itself that is analytical methods learned in early parts of the book are subsequently revisited and used for later analyses A deliberate attempt is made to make complex concepts simple and sometimes to point out that apparently simple concepts are sometimes less so on further investigation Any student taking a genetics course will find this book an invaluable aid to achieving a good understanding of genetic principles and practice
