The NexStar User's Guide II Michael Swanson, 2017-10-31 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this one that provides a complete detailed guide to buying using and maintaining NexStar telescopes Although this book is highly comprehensive it is suitable for beginners there is a chapter on Astronomy Basics and experts alike Celestron's NexStar telescopes were introduced in 1999 beginning with their first computer controlled go to model a 5 inch More models appeared in quick succession and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes

Progress in Advanced Information and Communication Technology and Systems Mykhailo Ilchenko, Leonid Uryvsky, Larysa Globa, 2022-11-17 This book highlights the most important research areas in information and communication technologies namely the research in fields of modern information technologies that deal with various aspects of the analysis and solution of practically important issues of information systems in general and contains discussion about the progression from big data to smart data development of cloud based architecture practical implementation of Internet of Things IoT the fundamentals of information and analytical activities studying of modern communication technologies contains original works dealing with many aspects of construction using research and forecasting of technological and services characteristics of communication systems as well as research of modern radio electronics technologies that contains actual papers which show some effective technological solutions that can be used for the implementation of novel radio electronics systems These results can be used in the implementation of novel systems and to promote information exchange in e societies This book offers a valuable resource for scientists lecturers specialists working at enterprises and graduate and undergraduate students who engage with problems in information and communication technologies

Choosing and Using a New CAT Rod Mollise, 2020-05-22 Catadioptric telescopes CATs such as the Schmidt Cassegrains remain popular among amateur astronomers for their ability to reveal thousands of beautiful deep space wonders Additionally their computer assisted capabilities allow them to automatically point to and track celestial objects making astronomy accessible to more people than ever before However selecting the right one and learning how to use it can be difficult for stargazers both old and new That's where this book comes in The first edition published in 2009 has remained the standard reference for mastering these popular instruments This revised edition brings the material completely up to date with several extensively rewritten chapters covering the most recent developments in telescope and camera equipment as well as computer software Through the author's 45 years of experience with catadioptric telescopes readers will learn to decide which catadioptric telescope is right for them to choose a specific make and model and finally to use the telescope in the field Covered in other

chapters are Solar System and deep sky observations astrophotography and computer control of CATs and troubleshooting and maintaining your equipment If you dream of owning a telescope or are frustrated by the telescope you already own this is the book for you **Smart Computing** Mohammad Ayoub Khan, Sanjay Gairola, Bhola Jha, Pushkar Praveen, 2021-05-12

The field of SMART technologies is an interdependent discipline It involves the latest burning issues ranging from machine learning cloud computing optimisations modelling techniques Internet of Things data analytics and Smart Grids among others that are all new fields It is an applied and multi disciplinary subject with a focus on Specific Measurable Achievable Realistic Timely system operations combined with Machine intelligence Real Time computing It is not possible for any one person to comprehensively cover all aspects relevant to SMART Computing in a limited extent work Therefore these conference proceedings address various issues through the deliberations by distinguished Professors and researchers The SMARTCOM 2020 proceedings contain tracks dedicated to different areas of smart technologies such as Smart System and Future Internet Machine Intelligence and Data Science Real Time and VLSI Systems Communication and Automation Systems The proceedings can be used as an advanced reference for research and for courses in smart technologies taught at graduate level *Computer and Computing Technologies in Agriculture IV* Daoliang Li, Yande Liu, Yingyi Chen, 2011-02-01

This book constitutes Part I of the refereed four volume post conference proceedings of the 4th IFIP TC 12 International Conference on Computer and Computing Technologies in Agriculture CCTA 2010 held in Nanchang China in October 2010 The 352 revised papers presented were carefully selected from numerous submissions They cover a wide range of interesting theories and applications of information technology in agriculture including simulation models and decision support systems for agricultural production agricultural product quality testing traceability and e commerce technology the application of information and communication technology in agriculture and universal information service technology and service systems development in rural areas **Ubiquitous Intelligence and Computing** Ching-Hsien Hsu, Laurence T. Yang, Jianhua Ma, Chunsheng Zhu, 2011-08-23

This book constitutes the refereed proceedings of the 8th International Conference on Ubiquitous Intelligence and Computing UIC 2010 held in Banff Canada September 2011 The 44 papers presented together with two keynote speeches were carefully reviewed and selected from numerous submissions The papers address all current issues in smart systems and services smart objects and environments cloud and services computing security privacy and trustworthy P2P WSN and ad hoc networks and ubiquitous intelligent algorithms and applications *Component-Based Software Development for Embedded Systems* Colin Atkinson, Christian Bunse, Hans-Gerhard Gross, Christian

Peper, 2005-11-19 Embedded systems are ubiquitous They appear in cell phones microwave ovens refrigerators consumer electronics cars and jets Some of these embedded systems are safety or security critical such as in medical equipment nuclear plants and X by wire control systems in naval ground and aerospace transportation vehicles With the continuing shift from hardware to software embedded systems are increasingly dominated by embedded software Embedded software is complex

Its engineering inherently involves a multi disciplinary interplay with the physics of the embedding system or environment Embedded software also comes in ever larger quantity and diversity The next generation of premium automobiles will carry around one gigabyte of binary code The proposed US DDX submarine is effectively a floating embedded software system comprising 30 billion lines of code written in over 100 programming languages Embedded software is expensive Cost estimates are quoted at around US 15 30 per line from commencement to shipping In the defense realm costs can range up to 100 while for highly critical applications such as the Space Shuttle the cost per line approximates 1 000 In view of the exponential increase in complexity the projected costs of future embedded software are staggering **Carnivore** Matthew R. Rutishauser,2008

Global Sources Telecom Products ,2007 **Smart Sensing Technology for Agriculture and Environmental Monitoring** Subhas Chandra Mukhopadhyay,2012-02-06 The book focuses on the different aspects of sensing technology i e high reliability adaptability recalibration information processing data fusion validation and integration of novel and high performance sensors specifically aims to monitor agricultural and environmental parameters This book is dedicated to Sensing systems for Agricultural and Environmental Monitoring offers to variety of users namely Master and PhD degree students researchers practitioners especially Agriculture and Environmental engineers The book will provide an opportunity of a dedicated and a deep approach in order to improve their knowledge in this specific field *Scientific and Technical Aerospace Reports* ,1994 **Sustainability, Eco-efficiency, and Conservation in Transportation**

Infrastructure Asset Management Massimo Losa,Tom Papagiannakis,2014-04-28 Worldwide there is a growing interest in efficient planning and the design construction and maintenance of transportation facilities and infrastructure assets The 3rd International Conference on Transportation Infrastructure ICTI 2014 Pisa April 22 25 2014 contains contributions on sustainable development and preservation of transportation in *Modeling, Simulation and Optimization* Biplab Das,Ripon Patgiri,Sivaji Bandyopadhyay,Valentina Emilia Balas,Sukanta Roy,2024-02-19 This book includes selected peer reviewed papers presented at the International Conference on Modeling Simulation and Optimization CoMSO 2022 organized by National Institute of Technology Silchar Assam India during December 21 23 2022 The book covers topics of modeling simulation and optimization including computational modeling and simulation system modeling and simulation device VLSI modeling and simulation control theory and applications and modeling and simulation of energy systems and optimization The book disseminates various models of diverse systems and includes solutions of emerging challenges of diverse scientific fields *Official Gazette of the United States Patent and Trademark Office* United States.
