**The History of Tattoos and Body Modification** Nicholas Faulkner, Diane Bailey, 2018-07-15. This captivating book offers readers a wider perspective and deeper appreciation for the art of tattooing than what's typically shown in the media. For those considering getting a tattoo, this will perhaps inform their decision. The book covers the history of tattooing, traveling from ancient Egypt, Rome, and Greece to Asia, the Middle East, Europe, and the United States. It explains the historical reasons for tattooing. It then goes on to investigate current tattoo trends, including calligraphy and the fusion of cultural designs.

*Body Piercing and Tattooing* Sarah Sawyer, 2007-01-15. Examines the history and culture of body art, what is involved in tattooing and body piercing, and the possible health risks.

*Moving Beyond the WEIRD* Sarah Rüller, 2025-04-04. In this open access book, Sarah Rüller offers a comprehensive exploration of the complexities and nuances of conducting Western digital research in non-Western contexts, focusing on a case study in the High Atlas Mountains of Morocco. The research underscores the importance of addressing the challenges inherent in navigating this intercultural landscape, particularly as Western researchers immersed in ethnographic work. The studies highlight the multifaceted issues surrounding postcolonial frameworks, extractivism, technocapitalism, exploitation, and the evolving paradigms of development and sustainability, and underscores the urgent need for a more pluralistic, site-specific co-design approach. This approach is central to promoting inclusive and just digital futures, mitigating the impact of WEIRD (Western, Educated, Industrialized, Rich, and Democratic) biases, and unraveling the complex interplay of local and rural contexts torn between authenticity and exploitation by information and communication technologies (ICTs). This research delves deeper into a critical analysis of the establishment of a MediaSpace and the different community perspectives on technology access, revealing tensions and contradictions that shape the discourse on development and self-determination.
