

WHAT IS A METAPHOR?

METAPHOR DEFINITION

- A metaphor is a form of figurative language. A metaphor is a rhetorical device in which an object, idea or situation is referred to directly as something it is not. It moves away from referring to something in a literal sense, and refers to it as something else in order to create a more imaginative figure of speech and description of something.
- When used as a literary device, a metaphor can add a more detailed and complex description to something giving the reader a more in depth experience. A metaphor is more easily able to convey an idea or an emotion than by simply using a literal statement.
