Boko Haram James J. Hentz,Hussein Solomon,2017-05-08 The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria Boko Haram s goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West The central theme of this volume examines the relationship between the failure of the state building

project in Nigeria and the outbreak and nature of insurgency At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state Part I introduces this theme and places the Boko Haram insurgency in a historical context There are however multiple cleavages in Nigeria ethnic regional cultural and religious and Part II examines the different state society dynamics fuelling the conflict Political grievances are common to every society however what gives Boko Haram the space to express such grievances through violence Importantly this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria s overall security Part III looks at the responses to Boko Haram by Nigeria neighbouring states and external actors For Western actors Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing However as the chapters here discuss this is an over simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram This book will be of much interest to students of terrorism and political violence insurgencies African politics war and conflict studies and IR in general *Radicalization and Deradicalization: Processes and Contexts* David Winter,Kees van den Bos,John Morrison,2022-11-18 Integration of Data Mining in Business Intelligence Systems Azevedo, Ana,Santos, Manuel Filipe,2014-09-30 Uncovering and analyzing data associated with the current business environment is essential in maintaining a competitive edge As such making informed decisions based on this data is crucial to managers across industries Integration of Data Mining in Business Intelligence Systems investigates the incorporation of data mining into business technologies used in the decision making process Emphasizing cutting edge research and relevant concepts in data discovery and analysis this book is a comprehensive reference source for policymakers academicians researchers students technology developers and professionals interested in the application of data mining techniques and practices in business information systems Advances in Condition Monitoring, Optimization and Control for Complex Industrial Processes Zhiwei Gao,Michael Z.
