Norms Without the Great Powers Adam Bower,2017-02-09 Can multilateral treaties succeed in transforming conduct when they are rejected by the most powerful states in the international system In the past two decades coalitions of middle power states and transnational civil society groups have negotiated binding legal agreements in the face of concerted opposition from China Russia andmost especiallythe United States These instances of a so called new diplomacy reflect a deliberate attempt to use the language of international law to bypass great power objections in establishing new global standards Yet critics have frequently derided such treaties as utopian and

counter productive because they fail to include those states allegedly most capable of effectively managing complex international cooperation Thus far no study has offered a systematic comparative study of the promise and limits of multilateralism without the great powers Norms Without the Great Powers addresses this gap through the presentation of a novel theoretical account and detailed empirical evidence regarding the implementation of two archetypal cases the antipersonnel Mine Ban Treaty and International Criminal Court Both treaties have substantially reshaped expectations and behaviour in their respective domains but with important variation in the extent and breadth of their impact These findings provide the impetus for assessing the prospects for similar strategies on other topics of contemporary global concern This book offers a timely addition to the dynamic and growing literature on the practice and consequences of international governance and should appeal to academics civil society experts and foreign policy practitioners working in fields such as security human rights and the environment

'Honour' Lynn Welchman, Sara Hossain, 2013-07-04 This volume brings together the practical insights and experiences of individuals and organisations working in diverse regions and contexts to combat crimes of honour Authors examine strategies of response to such manifestations of violence against women focusing largely on honour killings and interference with the right to choice in marriage and the related use and legal treatment of the defence of honour and provocation in different countries of Europe the Middle East Latin America and South Asia This timely volume is distinctive in approach and content highlighting activist and practice orientated academic perspectives from both the South and the North The authors give voice to the struggle to locate crimes of honour firmly within the international framework of violence against women and human rights rather than positioning these abuses as specific to particular cultures or communities The first of its kind this book serves as a resource in addressing honour crimes and more broadly violence against women and will be of interest to a multi disciplinary academic audience as well as to lawyers policy makers and activists

Congress. House. Committee on Foreign Affairs (1789-1975),1981 *The Prospect of Nuclear Jihad in South Asia* Musa Khan Jalalzai,2015-10-01 When we talk about Pakistan s nuclear weapons armed forces and civilian governments then controversies and uninvited misperceptions swirl in our minds If we take in the broad picture we inevitably conclude that not all is going in the right direction in the country and that is because the army politicians and the establishment perceive jihadism as a profitable business They run this business of killings and torture through their proxies While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian governments we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations The Pakistan military controls the financial market stock exchange real estate business banking sector and smuggling of narcotics Ethnic representation within the armed forces raises serious concerns Some experts say this is not a national army but view it as the club of Pashtun and Punjabi generals The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces but they certainly have gained experience in killing innocent civilians Then there is the question of the Saudi investment in Pakistan s Islamic nuclear bomb Saudi Arabia s link with Pakistan s nuclear and missile program has long been the source of speculation that Pakistan might either station nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state in return for oil supply or that the Saudis would purchase nuclear weapons from Pakistan International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future Pakistan's Foreign Policy Ghulam Ali,2022-07-08 This book analyses Pakistan s foreign policy and external relations with a focus on contemporary developments including the impact of the new government of Prime Minister Imran Khan the powerful military and the middle power status Structured in two parts Foundation and Operationalization the book provides a broad overview of Pakistan s foreign policy and addresses specific foreign policy choices Contributor s explore issues such as Pakistan s middle power status from a theoretical perspective Imran Khan s foreign policy Pakistan s relations with Shanghai Cooperation Organization SCO the EU and Pakistan s evolving Indian Ocean strategy Based on in depth interviews with Pakistani scholars politicians and diplomats the book offers a timely perspective on Pakistan s foreign policy The book will be of interest to academics working on Pakistan South Asian Politics Security and Conflict Studies International Relations and Foreign Policy and Asian Studies
