Husserl's Ideen Contributions To Phenomenology:

Husserl's Ideen Lester Embree, Thomas Nenon, 2012-11-05 This collection of more than two dozen essays by philosophy scholars of international repute traces the profound impact exerted by Husserl's Meisterwerk known in its shortened title as Ideen whose first book was released in 1913. Published to coincide with the centenary of its original appearance and fifty years after the second book went to print in 1952, the contributors offer a comprehensive array of perspectives on the ways in which Husserl's concept of phenomenology influenced leading figures and movements of the last century including among others Ortega y Gasset, Edith Stein, Martin Heidegger, Aron Gurwitsch, Ludwig Landgrebe, Dorion Cairns, Simone de Beauvoir, Jean Paul Sartre, Maurice Merleau-Ponty, Jacques Derrida, and Giles Deleuze. In addition to its documentation and analysis of the historical reception of these works, this volume also illustrates the ongoing relevance of the Ideen, offering scholarly discussion of the issues raised by his ideas as well as by the figures who took part in critical phenomenological dialogue with them. Among the topics discussed are autism, empathy, the nature of the emotions, the method and practice of phenomenology, the foundations of ethics, naturalism, intentionality, and human rights, to name but a few. Taken together, these specially commissioned original essays offer an unrivaled overview of the reception of Husserl's Ideen and the expanding phenomenological enterprise it initiated. They show that the critical discussion of issues by phenomenologists continues to be relevant for the 21st century.

Issues in Husserl's Ideas II Thomas Nenon, Lester Embree, 2013-03-14 This volume is chiefly composed of revised versions of essays presented and discussed at the research symposium of the same title held in Delray Beach, Florida, on May 7-9, 1993. The symposium was conducted under the sponsorship of the William F. Dietrich Eminent Scholar Chair in Philosophy at Florida Atlantic University and the Center for Advanced Research in Phenomenology, Inc. Several essays have been added, including the Husserl ineditum and its translation. The intention of the project was to attract even wider appreciation for this posthumous work by Husserl, especially since it has now been first translated into English by Andre Schuwer and Richard Rojcewicz. In manuscript form, the Ideas II was known to Martin Heidegger and Maurice Merleau-Ponty before *Sein und Zeit* (1927) and *Phänomenologie der Wahrnehmung* (1945), as well as to Edith Stein and Ludwig Landgrebe, of course, who worked on it as Husserl's assistants. It was published in 1952 as Volume IV of the Husserliana series, and critical studies of that volume were written by Paul Ricoeur and Alfred Schütz. Now that there is an English translation, it is increasingly being taught in the United States along with the Ideas I.

Phenomenological Perspectives on Place, Lifeworlds, and Lived Emplacement David Seamon, 2023-03-17 *Phenomenological Perspectives on Place, Lifeworlds, and Lived Emplacement* is a compilation of seventeen previously published articles and chapters by David Seamon, one of the foremost researchers in environmental, architectural, and place phenomenology. These entries discuss such topics as body-subject, the lived body, place, place-ballets, environmental serendipity, homeworlds, and the pedagogy of place and placemaking. The volume's chapters are broken into three parts. Part I includes four entries that consider what phenomenology offers studies of place.

and placemaking These chapters illustrate the theoretical and practical value of phenomenological concepts like lifeworld natural attitude and bodily actions in place Part II incorporates five chapters that aim to understand place and lived emplacement phenomenologically Topics covered include environmental situatedness architectural phenomenology environmental serendipity and the value of phenomenology for a pedagogy of place and placemaking Part III presents a number of explications of real world places and place experience drawing on examples from photography Andr Kert sz s Meudon television Alan Ball s Six Feet Under film John Sayles Limbo and Sunshine State and imaginative literature Doris Lessing s The Four Gated City and Louis Bromfield s The World We Live in Seamon is a major figure in environment behavior research particularly as that work has applied value for design professionals This volume will be of interest to geographers environmental psychologists architects planners policymakers and other researchers and practitioners concerned with place place experience place meaning and place making

The Idealism-Realism Debate Among Edmund Husserl's Early Followers and Critics Rodney K. B. Parker, 2021-08-26 This volume aims to contextualize the development and reception of Husserl s transcendental phenomenological idealism by placing him in dialogue with his most important interlocutors his mentors peers and students Husserl s turn to idealism and the ensuing reaction to Ideas I resulted in a schism between the early members of the phenomenological movement The division between the realist and the transcendental phenomenologists is often portrayed as a sharp one with the realists naively and dogmatically rejecting all of Husserl s written work after the Logical Investigations However this understanding of the trajectory of the phenomenological movement ignores the extensive and intricate contours of the idealism realism debate In addition to helping us better interpret Husserl s attempts to defend his idealism reconsidering the idealism realism debate elucidates the relationship and differences between Husserl s phenomenology and the broader landscape of early 20th century German philosophy particularly the Munich phenomenologists and the Neo Kantians The contributions to this volume reconsider many of the early interpretations and critiques of Husserl inviting readers to assess the merits of the arguments put forward by his critics while also shedding new light on their so called misunderstandings of his idealism This text should be of interest to researchers working in the history of phenomenology and Husserlian studies

The Sources of Husserl's 'Ideas I' Andrea Staiti, Evan Clarke, 2018-05-07 Despite an ever growing scholarly interest in the work of Edmund Husserl and in the history of the phenomenological movement much of the contemporaneous scholarly context surrounding Husserl s work remains shrouded in darkness While much has been written about the critiques of Husserl s work associated with Heidegger Levinas and Sartre comparatively little is known of the debates that Husserl was directly involved in The present volume addresses this gap in scholarship by presenting a comprehensive selection of contemporaneous responses to Husserl s work Ranging in date from 1906 to 1917 these texts bookend Husserl s landmark Ideas for a Pure Phenomenology and Phenomenological Philosophy 1913 The selection encompasses essays that Husserl responded to directly in the Ideas I as

well as a number of the critical and sympathetic essays that appeared in the wake of its publication. Significantly the present volume also includes Husserl's subsequent responses to his critics. All of the texts included have been translated into English for the first time, introducing the reader to a wide range of long neglected material that is highly relevant to contemporary debates regarding the meaning and possibility of phenomenology.

Commentary on Husserl's "Ideas I" Andrea Staiti, 2015-09-14 Husserl's *Ideas for a Pure Phenomenology and Phenomenological Philosophy* 1913 is one of the key texts of twentieth century philosophy. It is the first of Husserl's published works to present his distinctive version of transcendental philosophy and to put forward the ambitious claim that phenomenology is the fundamental science of philosophy. In *Ideas* Husserl introduces for the first time the conceptual arsenal of his mature phenomenology: the principle of all principles, the phenomenological epoché and reduction, pure consciousness and the noema. All these difficult notions have been influential and controversial in subsequent philosophy, both analytic and Continental. In this commentary, thirteen leading scholars of Husserlian phenomenology set out to clarify and defend Husserl's views, connecting them to the vast corpus of his published and unpublished writings and discussing the main available interpretations in the existing scholarship. The result is a detailed and comprehensive account of the most original form of transcendental philosophy since Kant's *Critique of Pure Reason*.

The Husserlian Mind Hanne Jacobs, 2021-07-20 Edmund Husserl 1859-1938 is widely regarded as the principal founder of phenomenology, one of the most important movements in twentieth century philosophy. His work inspired subsequent figures such as Martin Heidegger, his most renowned pupil, as well as Jean-Paul Sartre and Maurice Merleau-Ponty, all of whom engaged with and developed his insights in significant ways. His work on fundamental problems such as intentionality, consciousness and subjectivity continues to animate philosophical research and argument. *The Husserlian Mind* is an outstanding reference source to the full range of Husserl's philosophy. Forty chapters by a team of international contributors are divided into seven clear parts covering the following areas: major works, phenomenological method, phenomenology of consciousness, epistemology, ethics and social and political philosophy, philosophy of science, metaphysics. Contained in these sections are chapters on many of the key aspects of Husserl's thought, including intentionality, transcendental philosophy, reduction, perception, time, self and subjectivity, personhood, logic, psychology, ontology and idealism. Offering an unparalleled guide to the enormous range of his thought, *The Husserlian Mind* is essential reading for students and scholars of Husserl, phenomenology and the history of twentieth century philosophy. It will also be of interest to those in related fields in the humanities, social sciences and psychology and the cognitive sciences.

The Phenomenological Critique of Mathematisation and the Question of Responsibility Lubica Učník, Ivan Chvatík, Anita Williams, 2014-11-19 This edited collection discusses phenomenological critiques of formalism and their relevance to the problem of responsibility and the life-world. The book deals with themes of formalization of knowledge in connection to the life-world, the natural world, the history of science and our responsibility for both our epistemic claims and the world in which we live. Readers will discover critiques of

formalization the life world and responsibility and a collation and comparison of Pato ka s and Husserl s work on these themes Considerable literature on Husserl is presented here and the two themes of epistemic responsibility and the life world are discussed together This work specifically emphasizes the interrelatedness of these existential aspects of his work self responsibility and the crisis as not only epistemological but also related to human life This volume also introduces Jan Pato ka to English speaking readers as a phenomenologist in his own right Pato ka shows us in particular the significance of the modern abyss between our thinking and the world Readers will discover that this abyss is of concern for our everyday experience because it leads to a rupture in our understanding of the world between the world of our living and its scientific construct We see that Pato ka continually emphasized the relevance of Husserl s work to existential questions relating to human responsibility and the life world which he admits is left largely implicit in Husserl s work This edited collection will spark discussion on the question of responsibility against the backdrop of formalized knowledge which is increasingly inaccessible to human understanding Despite the complexity of some of the analyzed ideas this book discusses these themes in a clear and readable way This work is scholarly exact in its discussion and authoritative in its reading but at the same time accessible to anyone motivated to understand these debates

Hedwig Conrad-Martius and Edith Stein: Philosophical Encounters and Divides Antonio Calcagno, Ronny Miron, 2022-11-03 This book focuses on the unique philosophical relationship between Hedwig Conrad Martius and Edith Stein The two phenomenologists discussed and debated insights and ideas about the nature of the soul phenomenology personhood and individuality animal life nature being and God This book brings together for the first time leading international scholars of phenomenology to explore the philosophical exchange between both Conrad Martius and Stein This is an important book for understanding the development of the phenomenological movement and key phenomenological ideas and methods It provides a critical and comprehensive overview of the key issues that helped frame both phenomenologists philosophical trajectories Additionally the ideas of Conrad Martius and Stein are mined to address contemporary questions surrounding such topics as personal identity animal versus human personhood contemporary atheism and the relationship between religion and science The book will have great appeal to phenomenologists philosophers and historians of philosophy

Heidegger, Translation, and the Task of Thinking F. Schalow, 2011-08-25 Numerous volumes have been written on the philosophy of Martin Heidegger and new translations of his writings appear on a regular basis Up to now however no book has addressed the connections between Heidegger s thought and the hermeneutic methodology involved in translating his works or any other text Gathering essays by internationally recognized scholars this volume examines the specific synergy that holds between Heidegger s thinking and the distinctive endeavor of translation Heidegger Translation and the Task of Thinking Essays in Honor of Parvis Emad offers scholars and students alike a rare journey into the insights and intricacies of one of the greatest philosophers of the twentieth century The book also pays homage to Parvis Emad Professor Emeritus of Philosophy at De Paul University founder

of the journal *Heidegger Studies* and a renowned translator of Heidegger's writings *Heidegger Translation and the Task of Thinking* Essays in Honor of Parvis Emad provides a uniquely focused perspective on Heidegger's thought and delves into the strategies and controversies that attend all attempts to translate his most complex and challenging texts including his seminal works *Contributions to Philosophy* and *Mindfulness* Accordingly this book will be of great interest and benefit to anyone working in the fields of phenomenology hermeneutics or Heidegger studies
