

Key Symbols

Standard Key Symbols

A key symbol is an alpha and/or numeric (MK2, CK1, 1-1) designation that is used to properly identify the correct key combination for a door or group of doors.

2-Level System

Here are a few rules to consider when designing a 2-level system:

Rule #1: Change keys have numbers added to the letters or numbers of the master key they're under. In 2-level systems, it is these numbers that come last.

3-Level System

In systems with more than 2 levels, the change key numbers come last. Here we have a 3-level system, a grand master key system.

The change key numbers come last and the master keys have 2 letters. The new item here is the grand master key.

Rule #2: GMKs have only one letter or number.

Rule #3: Masters under the grand must start with the letters MK.
