Master Lab Cucina:

Didattica capovolta: Matematica e scienze Grazia Paladino, Chiara Spalatro, 2020-04-11 Un volume che illustra i principi di fondo del metodo della flipped classroom e fornisce indicazioni operative per la sua applicazione nell'insegnamento di matematica e scienze alla scuola secondaria di primo grado. La flipped classroom è una metodologia innovativa che rovescia i tempi classici della didattica spostando a casa il momento dello studio preliminare dei contenuti ricorrendo soprattutto a risorse digitali per focalizzare le energie e il tempo a scuola sulla costruzione, rielaborazione e il consolidamento delle conoscenze. Questo approccio consente una vera personalizzazione dell'insegnamento favorendo l'inclusione di tutti gli alunni, il raggiungimento dei traguardi di competenza e l'educazione al corretto uso degli strumenti digitali e della rete. Il volume presenta i principi di fondo del metodo con indicazioni operative e pratiche ad esempio come realizzare o scegliere un video didattico efficace come gestire una piattaforma didattica ecc. 9 percorsi didattici capovolti per la scuola secondaria di primo grado relativi al curriculum di matematica e scienze. In sintesi: Un libro che fa guardare la scuola da un'altra prospettiva e fa capovolgere la classe per includere tutti e soddisfare in modo efficace i bisogni educativi degli studenti. The Routledge Handbook of Mesoamerican Bioarchaeology Vera Tiesler, 2022-05-23 This volume brings together a range of contributors with different and hybrid academic backgrounds to explore through bioarchaeology the past human experience in the territories that span Mesoamerica. This handbook provides systematic bioarchaeological coverage of skeletal research in the ancient Mesoamericas. It offers an integrated collection of engrained bioculturally embedded explorations of relevant and timely topics such as population shifts, lifestyles, body concepts, beauty, gender, health, foodways, social inequality and violence. The additional treatment of new methodologies, local cultural settings and theoretic frames rounds out the scope of this handbook. The selection of 36 chapter contributions invites readers to engage with the human condition in ancient and not so ancient Mesoamerica and beyond. The Routledge Handbook of Mesoamerican Bioarchaeology is addressed to an audience of Mesoamericanists, students and researchers in bioarchaeology and related fields. It serves as a comprehensive reference for courses on Mesoamerica, bioarchaeology and Native American studies. **Fire and Salt** Hector Neff, 2024-11-01 Fire and Salt traces the history of how human activities have helped build the littoral landscape of Pacific coastal southern Mesoamerica over the past five thousand years. Evidence comes from airborne lidar, surface reconnaissance and excavation within the mangrove estuary zone, sediment coring and a chronological framework encompassing nine ceramic complexes extending from Early Formative to Historic times. In presenting the landscape as it exists today, this volume also describes what may soon be lost. The mangrove forests harbor a record of the human past, a focus of the present volume, but they also shield the coast from storms and tsunamis, provide nurseries for commercially important marine species and store large amounts of carbon. These threats may pale, however, in comparison to the imminent threat posed by sea level rise over the coming decades, especially if worst case scenarios come to pass. By inventorying resources including cultural resources, this

book makes a first step toward mitigating the effects of environmental degradation that appear all but unavoidable

Isotopic Proveniencing and Mobility T. Douglas Price, 2023-03-30 This volume provides a state of the art presentation and discussion of procedures especially what works and what doesn't on isotopic proveniencing learned over the last 30 years The volume focuses on application not method to emphasize to the reader the wide range of questions that can be addressed using isotopic proveniencing Topics covered include samples baselines isoscapes and place of origin Isotopic proveniencing has become almost standard procedure in the analysis of archaeological burials as a means of distinguishing locals from foreigners The combination of isotopic proveniencing and DNA has moved archaeological interest in migration and mobility to the fore but there is very little synthetic work published for either technology The field has evolved and new procedures and guidelines have emerged that have not been widely heard and this volume seeks to rectify this The contributors have been selected from among the leaders in the field those with active research and hands on experience with the technology This volume is of relevance to archaeologists

New Perspectives on Human Sacrifice and Ritual Body Treatments in Ancient Maya Society Vera Tiesler, Andrea Cucina, 2007-02-15 The central goal of this book is to contribute to the timely discussion and understanding of Maya sacrifice and related posthumous body manipulation Most school children in the US learn about the Maya and their practices based on their cultural and religious beliefs in their Social Studies classes But a number of new sites have been discovered giving an interdisciplinary group of researchers a channel to discuss these acts and their meaning The editors bring together not only archaeologists but anthropologists forensic anthropologists art historians and bioarchaeologists giving the volume a more complete perspective on these sites and the material culture and biological evidence found there The field of archaeology is growing to include the physical remains of ritual practice along with the material remains and this book can be seen as an example of how the study of ancient civilizations can be more comprehensive Additionally this is an international volume with scholars from the area studied which is becoming more and more important in archaeological research This will be of interest to students studying Mayan and Mesoamerican culture as well as those interested in bioarchaeology and human sacrifice
