1 November 2011 1 The Sabalauski Air Assault School TSAAS is a FORSCOM TDA unit that trains leaders and Soldiers assigned to the 101st Airborne Division Air Assault as well as other Army units and armed services in several courses By conducting the Air Assault and Pathfinder Courses The Sabalauski Air Assault School develops technically proficient and confident Soldiers capable of safely executing immediate and sustained air assault operations The school also trains and qualifies military Rappel Masters Fast Rope Masters and SPIES Masters in the application of infiltration and extraction techniques The school provides quality basic airborne refresher and jumpmaster refresher training to airborne capable units Finally the school provides command and control of the 101st Airborne Division Air Assault Screaming Eagle Parachute Team

2 This handbook is designed to facilitate the mission of the school serving as a baseline of information for the Air Assault Course It is not a substitute for applicable Army regulations field manuals training circulars or technical manuals but it is designed to complement the guidance in these publications in the area of air assault operations The 101st Airborne Division Air Assault disclaims any responsibility for incidents occurring while applying these procedures 3 The proponent for this handbook is the Commander of The Sabalauski Air Assault School This 2011 update provides users with the latest doctrinal information regarding Air Assault Operations Users of this publication are encouraged to recommend improvements or changes in writing to ACoFS G3 5 7 DPTM ATTN AFZB K GT AA Fort Campbell KY 42223 5000 The 101st Airborne Division Air Assault has a long and rich heritage As the world's only functional Air Assault Division the 101st Airborne has pioneered the development of Air Assault tactics techniques and procedures TTPs These tactics were quantifiably demonstrated in 1991 during Operation Desert Storm and most recently during Operation Enduring Freedom and Operation Iraqi Freedom We are currently at war with dangerous and adaptive terrorist forces in complex environments In response the Division continually refines its TTPs exploiting our unique capabilities to defeat our nation's enemies This reference publication The Gold Book June 2014 re-establishes the baseline for the planning and execution of Air Assault operations On the Wing David E. Alexander, 2015-09-02 Ask anybody what superpower they wished to possess and odds are the answer just might be the ability to fly What is it about soaring through the air held up by the power of one's own body that has captivated humans for so long David Alexander examines the evolution of flight in the only four animals to have evolved this ability insects pterosaurs birds and bats With an accessible writing style grounded in rigorous research Alexander breaks new ground in a field that has previously been confined to specialists While birds have received the majority of attention from flight researchers Alexander pays equal attention to all four groups of flyers something that no other book on the subject has done before now In a streamlined and captivating way David Alexander demonstrates the links between the tiny 2 mm thrip and the enormous albatross with the 12 foot wingspan used to cross oceans The book delves into the fossil record of flyers enough to satisfy the budding paleontologist while also pleasing ornithologists and entomologists alike with its treatment of animal behavior flapping mechanisms and wing origin theory Alexander uses relatable examples to draw in readers even

without a natural interest in birds bees and bats He takes something that is so off limits and unfamiliar to humans the act of flying and puts it in the context of experiences that many readers can relate to Alexander guides readers through the anomalies of the flying world hovering hummingbirds unexpected gliders squirrels for instance and the flyers that went extinct pterosaurs Alexander also delves into wing origin theory and explores whether birds entered the skies from the trees down as gliders or from the ground up as runners and uses the latest fossil evidence to present readers with an answer
