Wordcraft Alex Frankel, 2004-04-20 Five little words BlackBerry Accenture Viagra Cayenne e business Two of the words are appropriated BlackBerry and Cayenne two are completely made up Viagra and Accenture and one e business is a composite word made of a word and a letter that already exist These five words are the characters in this book Words shape and move the modern marketplace they are at once ubiquitous and invisible But where do words such as Saturn PowerBook and Tylenol originate How did we come to xerox our paperwork and have a cup of Starbucks Which names work and why For journalist Alex Frankel what began as an exercise in curiosity tracing the evolution of a handful of the most successful brand names from the marketplace to their places of origin resulted in a year long journey in which he gained access to a previously undiscovered world of forward thinking creatives professional namers the unique group of marketers responsible for inventing words that ultimately become a part of our everyday vocabularies Wordcraft is Frankel's in depth look at how companies name themselves and their products and in the process of defining their business through words and language develop narratives that define the way they present themselves to the outside world His lively fly on the wall narrative takes us into the conference rooms of Lexicon the world's largest professional naming firm where we see how the highly successful email pager known as the BlackBerry got its name We travel to Germany to learn how Porsche approached the naming of its controversial SUV a car that challenged the company's famously sporty image The creative team behind Viagra explains how they took a completely fabricated word and turned it into a powerful idea We witness how IBM assumed ownership of the

word and story of the business and in so doing turned around its corporate mindset and returned to a dominant industry position. The book is filled with stories about how things get their names but it's not just tales of business meetings and product launches. We meet the characters who populate the naming world: information age neologists like freelance namer Andrea Michaels who plays professional Scrabble and competes on TV game shows when not brainstorming for corporate clients. And we learn about the civic unrest that erupted in Denver when the naming rights for Mile High Stadium were sold. Frankel laces his narrative with cultural and historical references and quotations from thinkers as diverse as Marianne Moore and Lawrence Lessig, all of which add a layer of richness and depth to this book's multithreaded and engaging stories. For anyone intrigued by the power of words and ideas in today's marketplace, *Wordcraft* is a captivating tour of a fascinating world.

***Practice Made Perfect*** Marsha L. Heinke, 2014-05-14      ***Bursting The Bubble - The Story of Being 'Lost Without Her': A journey of growing through tragedy & loss*** Mark Oborn, 2020-08-01

This book is for you if you have lost a significant other. This book is for you if you find yourself on a journey through grief or are supporting someone else through their journey. The book charts my first year of being a widower; its chapters are a series of blog posts I wrote immediately after my beautiful wife Claire died. This book is ordered chronologically by days, then weeks, then months; this allows you to dip into any time after your event which feels relevant to you and see what I was saying and thinking at that same time. Each blog post I wrote and therefore each chapter in this book is tagged; the website is searchable by each of those tags and I've used the same tags here for each chapter. The tags represent feelings, emotions, and events. If you go to the index at the back of the book, you can find those tags or themes and discover which of the chapters/blog posts will be most relevant to how you are feeling right now. As with the blog, I feel like I'm with you on your journey as you read this book. Just know you are not alone.
