In recent scholarly work T S Eliot has usually been associated with cultural elitism and political conservatism or even with proto fascism and anti-Semitism This book proposes a different view During the Interbellum Eliot and his review The Criterion were part of an international network of intellectuals that shared an open minded Europeanness Authors like T Mann Benda Ortega y Gasset Curtius and Hofmannsthal emphasized their common European roots and shared cultural legacy Their classicism stands in the European tradition of humanism and has remained highly relevant Classicist ideas about literature education and human culture in general continue to inspire contemporary humanist thinkers as the second part of this book demonstrates by discussing the work of Ferry Todorov Steiner Scruton Toulmin and others

Psychologism and Psychoaesthetics John Fizer, 1981-01-01 Unlike studies which confine psychologism to the second half of the nineteenth century and to an explicit claim of psychology as a *Grundwissenschaft* during that period this work attempts to trace psychologism's emergence in Greek antiquity in hedonistic tendencies of the Renaissance and in British Empiricism Thus psychologism figures as a generic concept embracing a variety of both positivistic and idealistic arguments concerning the localization of normative sciences particularly aesthetics and literary theory in psychological space This study also considers the implicit psychologism of even those psychoaesthetic theories which claimed to be against the exclusive status of psychology In their actual treatment of aesthetic and literary facts such theories inadvertently did indeed resort to psychologistic arguments The position from which I have chosen to look at psychologically committed aesthetics and literary theory is essentially phenomenological The author seeks to present psychologism as a central tendency of psychoaesthetics as well as to assert critically psychologism's basic assumptions **Faith, Reason, and Power in the**

International Handbook of Comparative Education Robert Cowen, Andreas M. Kazamias, 2009-08-22 A big project like this Handbook means that you incur debts and not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know that some of our authors worked in very difficult private circumstances as they were finishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of difficulties and disasters overcome The only sad theme is that some very close colleagues with whom we were working and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook
