

Reading Between The Lines ACT Report and Guided Highlighted Reading

"The *Reading Between The Lines* report helps us identify the definition of complex texts. It noted six aspects that contribute to increasing complexity within texts: relationships, richness, structure, style, vocabulary, and purpose (RSVP). Guided Highlighted Reading addresses each aspect of the complex text definition.

The importance of these aspects of complexity cannot be overstated or overemphasized, and every teacher should become familiar with them. The ACT report states that students who correctly answer questions based on complex texts can score potentially as many as 10 points higher on average than scores associated with correctly answering questions based on uncomplicated texts.

The report concludes, "...performance on complex texts is the clearest differentiator in reading between students who are likely to be ready for college and those who are not. And this is true for all genders, all racial/ethnic groups, and all family income levels."

This research has implications for classroom teachers as they prepare all students for today's complex world. Supporting students in the reading of complex texts can level the playing field; students have the potential to transcend socially constructed barriers."
