Through analysis they confirm the message is encoded in a rudimentary form of Sumerian spoken widely around 5 700 years ago and believed obsolete by 2000 BCE Hushang undertakes the intricate task of translating fragments into English

Givmartha is frustrated that The Craft of Thought Mary Jean Carruthers,2000-10-26 The Craft of Thought first published in 1998 is a companion to Mary Carruthers earlier study of memory in medieval culture The Book of Memory This more recent volume examines medieval monastic meditation as a discipline for making thoughts and discusses its influence on literature art and architecture In a process akin to today s creative thinking or cognition this discipline recognises the essential roles of imagination and emotion in meditation Deriving examples from a variety of late antique and medieval sources with excursions into modern architectural memorials this study emphasises meditation as an act of literary composition or invention the techniques of which notably involved both words and making mental pictures for thinking and composing
