Re: Acct #XXXX-XXXX-XXXX-XXXX

Dear Madam/Sir,

I am writing to you today regarding my account #XXXX-XXXX-XXXX-XXXX. The purpose of my correspondence is to see if you would be willing to make a "goodwill" adjustment on the reporting of this account to the three credit agencies.

During the time period this account was established I was very happy with the service. I was however not the ideal customer and made mistakes with my handling of the account. I should have kept better records regarding the account and I take full responsibility. I became aware of the unpaid balance when I got a copy of my credit report in *(insert date)*.

I know that payment was my responsibility and I am not attempting to justify this breach of my user agreement. I was however hoping you might review the circumstances under which this non-payment occurred and consider removing the negative trade line associated with this account from my three credit reports.

A Forensic Linguistic Approach to Legal Disclosures James Stratman, 2015-10-08 This book is a scholarly work of forensic linguistics that demonstrates how the principles of Gricean pragmatics and their recent elaboration in Information Manipulation Theory IMT can be of use to courts faced with deciding cases of allegedly fraudulent disclosure documents The usual goal of legal rules for disclosure documents is not merely to prevent lying but other forms of deception as well In particular the goal of these rules is to force the communicator to reveal information that could cause material harm to certain receivers harms that the communicator for various reasons of self interest might prefer to keep secret or hidden Because IMT and the Gricean framework have seldom been used in published studies to investigate legally mandated disclosure documents aimed at laypersons this book seeks to enrich current explications of the rhetorical workings of deceptive disclosures within the broader Gricean tradition of pragmatics The book questions the fundamental relationships among Grice's maxims as well as the much circulated notion that violation of some maxims is more deceptive and more immoral than violations of others In addition the book also attempts to show how various other theories and research in discourse linguistics and reading comprehension can be used to support IMT analyses in addressing the discourse processing issues unique to legally required disclosure texts In this way the book contributes to the larger dual mission of the field of forensic linguistics which is both to understand and to improve courts impact on social justice
