Morley,Benoît Bernier,Agathe Garon,1971-12-15 There is no doubt that local and regional history considered by many as a kind of minor historical study has a pressing need for a systematic inventory of its resources This collection shows the durability the vividness and the astonishing productivity of a sector of history which is the stronghold of the history lover rather than the professional historian The nature and content of each book determines its selection For each book included the compilers have weighed its contribution to local history and regional history rather than the style in which

it is written narrative memoir descriptive study or novel It is this criterion of selection that has permitted the retention of several general histories of a varied nature Bouchette Charlevoix Nicholas Denys La Potherie Lescarbot Hanotau Sulte etc where local and regional life takes on a major importance for reasons of order in history method or quite simply because local life is the principal object of the study itself The editors have also retained certain works those of George W Brown Arthur Buies George M Grant Blodwen Davies etc because they are primarily descriptive and contain numerous elements in which local history blends with the manners and customs of the inhabitants of certain regions This bibliography is designed primarily for historiographers who have until now paid little attention to local regional or parochial history It will also be invaluable for librarians who suffer from the numerous difficulties involved in the classification of such works Since 1950 all works published in Canada are by virtue of the book deposit law provided to the National Library of Canada and recorded in Canadiana

Esti toastée des deux bords Le juron de Junior fils de Xavier Galarneau dans le populaire téléroman L'Héritage de Victor Lévy Beaulieu s'est inscrit dans l'imaginaire collectif de toute une génération Relevant d'un registre familial empreint d'inventivité et de subversion cette expression révèle la propension de l'crivain mettre en scène avec succès des personnages issus du peuple s'exprimant dans une langue qui leur est propre et qui les magnifie C'est dans cette optique que les textes réunis dans cet ouvrage examinent la production qui se rattache des genres dits oraux parce que destinés à être performés et populaires parce que susceptibles de toucher un large public En se penchant notamment sur les contes les téléromans et le théâtre de Beaulieu ce livre explore avec rudition mais dans un langage accessible une part peu connue de l'œuvre beaulieusienne tout en apportant une importante contribution à la recherche sur cetcrivain immense et singulier
