Miss Julie Script:

August Strindberg's Miss Julie William Haner Leckie, 1976 **The Ballad of John Latouche** Howard

Pollack, 2017-10-06 Born into a poor Virginian family John Treville Latouche 1914-56 in his short life made a profound mark on America's musical theater as a lyricist, book writer and librettist. The wit and skill of his lyrics elicited comparisons with the likes of Ira Gershwin, Lorenz Hart and Cole Porter but he had too noted Stephen Sondheim a large vision of what musical theater could be and he proved especially venturesome in helping to develop a lyric theater that innovatively combined music, word, dance and costume and set design. Many of his pieces even if not commonly known today remain high points in the history of American musical theater. A great American genius in the words of Duke Ellington, Latouche initially came to wide public attention in his early twenties with his cantata for soloist and chorus *Ballad for Americans* 1939 with music by Earl Robinson a work that swept the nation during the Second World War. Other milestones in his career included the all-black musical fable *Cabin in the Sky* 1940 with Vernon Duke, an interracial updating of John Gay's classic *The Beggar's Opera* as *Beggar's Holiday* 1946 with Duke Ellington, two acclaimed Broadway operas with Jerome Moross *Ballet Ballads* 1948 and *The Golden Apple* 1954, one of the most enduring operas in the American canon, *The Ballad of Baby Doe* 1956 with Douglas Moore and the operetta *Candide* 1956 with Leonard Bernstein and Lillian Hellman. Extremely versatile he also wrote cabaret songs, participated in documentary and avant-garde film, translated poetry, adapted plays and much else. Meanwhile as one of Manhattan's most celebrated raconteurs and hosts he developed a wide range of friends in the arts including to name only a few Paul and Jane Bowles whom he introduced to each other, Yul Brynner, John Cage, Jack Kerouac, Frederick Kiesler, Carson McCullers, Frank O'Hara, Dawn Powell, Ned Rorem, Virgil Thomson, Gore Vidal and Tennessee Williams, a dazzling constellation of diverse artists working in sundry fields all attracted to Latouche's brilliance and joie de vivre, not to mention his support for their work. This book draws widely on archival collections both at home and abroad including Latouche's diaries and the papers of Bernstein, Ellington, Moore, Moross and many others to tell for the first time the story of this fascinating man and his work.

Contributors cover a broad range of topics from the practical ethnography of directing foreign language productions to writing for theoretical stages to the radical deaf theater of Aaron Sawyer's *The Vineyard*. The Proof Stage Stephen Abbott, 2023-07-11 How playwrights from Alfred Jarry and Samuel Beckett to Tom Stoppard and Simon McBurney brought the power of mathematics to life on the stage. The discovery of alternate geometries, paradoxes of the infinite incompleteness and chaos theory revealed that despite its reputation for certainty, mathematical truth is not immutable, perfect or even perfectible. Beginning in the last century a handful of adventurous playwrights took inspiration

from the fractures of modern mathematics to expand their own artistic boundaries Originating in the early avant garde mathematics infused theater reached a popular apex in Tom Stoppard s 1993 play Arcadia In The Proof Stage mathematician Stephen Abbott explores this unlikely collaboration of theater and mathematics He probes the impact of mathematics on such influential writers as Alfred Jarrry Samuel Beckett Bertolt Brecht and Stoppard and delves into the life and mathematics of Alan Turing as they are rendered onstage The result is an unexpected story about the mutually illuminating relationship between proofs and plays from Euclid and Euripides to G del and Godot Theater is uniquely poised to discover the soulful human truths embedded in the austere theorems of mathematics but this is a difficult feat It took Stoppard twenty five years of experimenting with the creative possibilities of mathematics before he succeeded in making fractal geometry and chaos theory integral to Arcadia s emotional arc In addition to charting Stoppard s journey Abbott examines the post Arcadia wave of ambitious works by Michael Frayn David Auburn Simon McBurney Snoo Wilson John Mighton and others Collectively these gifted playwrights transform the great philosophical upheavals of mathematics into profound and sometimes poignant revelations about the human journey

and faith within a text that is grippingly dramatic unfailingly absorbing and often upliftingly lyrical At a time when young writers were looking for new forms of literary expression Enquist settled for an investigative style and attempt to reconstruct events reported to have happened but where the truth is often too inaccessible it was a style that was to remain Enquist's literary landmark characterising both his novels and his plays Contemporary World Authors ed Tracey Chevalier

A substantive exploration of bodies and embodiment in theatre Theatre is inescapably about bodies By definition theatre requires the live bodies of performers in the same space and at the same time as the live bodies of an audience And yet it's hard to talk about bodies We talk about characters we talk about actors we talk about costume and movement But we often approach these as identities or processes layered onto bodies rather than as inescapably entwined with them Bodies on the theatrical stage hold the power of transformation Theatre practitioners scholars and educators must think about what bodies go where onstage and what stories which bodies to tell The essays in *Theatre Symposium* Volume 27 explore a broad range of issues related to embodiment The volume begins with Rhonda Blair's keynote essay in which she provides an overview of the current cognitive science underpinning our understanding of what it means to be embodied and to talk about embodiment She also provides a set of goals and cautions for theatre artists engaging with the available science on embodiment while issuing a call for the absolute necessity for that engagement given the primacy of the body to the theatrical act The following three essays provide examinations of historical bodies in performance Timothy Pyles works to shift the common textual focus of Racinian scholarship to a more embodied understanding through his examination of the performances of the young female students of the Saint Cyr academy in two of Racine's Biblical plays Shifting forward in time by three centuries Travis Stern's exploration of the auratic celebrity of baseball player Mike Kelly uncovers the ways in which bodies may retain the ghosts of their former selves long after physical ability and wealth are gone Laurence D Smith's investigation of actress Manda Björling's performances in *Miss Julie* provides a model for how cognitive science in this case theories of cognitive blending can be integrated with archival theatrical research and scholarship From scholarship grounded in analysis of historical bodies and embodiment the volume shifts to pedagogical concerns Kaja Amado Dunn's essay on the ways in which careless selection of working texts can inflict embodied harm on students of color issues an imperative call for careful and intentional classroom practice in theatre training programs Cohen Ambrose's theorization of pedagogical cognitive ecologies in which subjects usually taught disparately acting theatre history costume design for example could be approached collaboratively and through embodiment speaks to ways in which this call might be answered Tessa Carr's essay on *The Integration of Tuskegee High School* brings together ideas of historical bodies and embodiment in the academic theatrical context through an examination of the process of creating a documentary theatre production The final piece in the volume Bridget Sundin's exchange with the ghost of Marlene Dietrich is an imaginative exploration of how it is possible to open the archive to create new spaces for performance scholarship via an interaction with the body *Adaptation and Nation* Catherine Rees, 2017-11-17 This book focuses on modern theatrical adaptations that rework classic plays in new British and Irish settings It explores these shifted national

contexts and examines what they might reveal about the political and cultural climate of the new setting In examining the modern setting alongside the country of the original text it also reveals fascinating resonances between two different national contexts The book discusses five British and Irish playwrights and their current adaptations examining well known dramatists such as Martin McDonagh Sarah Kane and Brian Friel while analysing some of their less well known plays offering a novel examination of the adaptation process The book further provides an insightful commentary on some significant events of the twentieth century in Britain and Ireland such as the historic Labour victory of 1945 and scandals in the Royal Family since the 1990s This book will appeal to theatre and performance enthusiasts as well as students and scholars of both theatre and adaptation

Spectral Characters Sarah Balkin, 2019-07-31 Theater's materiality and reliance on human actors has traditionally put it at odds with modernist principles of aesthetic autonomy and depersonalization Spectral Characters argues that modern dramatists in fact emphasized the extent to which humans are fictional made and changed by costumes settings props and spoken dialogue Examining work by Ibsen Wilde Strindberg Genet Kopit and Beckett the book takes up the apparent deadness of characters whose selves are made of other people whose thoughts become exteriorized communication technologies and whose bodies merge with walls and furniture The ghostly vampiric and telepathic qualities of these characters Sarah Balkin argues mark a new relationship between the material and the imaginary in modern theater By considering characters whose bodies respond to language whose attempts to realize their individuality collapse into inanimacy and who sometimes don't appear at all the book posits a new genealogy of modernist drama that emphasizes its continuities with nineteenth century melodrama and realism
