Mission Et Colonisation Madagascar:

The Norwegian Mission's Literacy Work in Colonial and Independent Madagascar Ellen Veia Rosnes, 2018-12-07 Offering an original historical perspective on literacy work in Africa this book examines the role of the Norwegian Lutheran mission in Madagascar and sheds light on the motivations that drove colonizing powers literacy work Focusing on both colonial and independent Madagascar Rosnes examines how literacy practices were facilitated through mission schools and the impact on the reading and writing skills to Malagasy children and youth Analysing how literacy work influenced identity formation and power relations in the Malagasy society the author offers new insights into the field of language and education in Africa

The Encyclopædia of Missions Edwin Munsell Bliss, 1891 **Building God's Kingdom** Karina Hestad Skeie, 2012-11-13 Building God's Kingdom studies how the encounter with nineteenth century Madagascar influenced the Norwegian Protestant mission Drawing upon rich Norwegian and Malagasy sources entangled and multivocal stories are allowed to unfold revealing the complex dynamics of mission encounters Tracing Malagasy agency and pursuit of churchly independence in pre colonial and colonial Madagascar this study explores the power struggles between the Malagasy the missionaries and between the mission in Norway and Madagascar Through careful attention to context and agency Karina Hestad Skeie provides new perspectives on the interplay between the local and the global in Christian missions and on the centrality and restrictions of local agency on mission policy *The Colonial Dream* Damien Tricoire, 2023-03-06 European expansion began in the early modern period but in the 18th century Europeans were still far from establishing their rule in Africa or Asia Many attempts at expansion failed miserably Nevertheless the belief in European supremacy and civilizing charisma was consolidated This study examines the reasons for these unrealistic plans and shows how a gap developed between imperial aspirations and the reality of intercultural encounters Using the history of French attempts at expansion in Madagascar as an example it analyses the unfolding of colonial fantasy the production of bureaucratic knowledge and the role of the Enlightenment in the development of colonialism **Report of the Centenary Conference on the Protestant Missions of the World** Johnston, 1888 Report of the Centenary Conference on the Protestant Missions of the World

James Johnston (F.S.S.), 1888 *Communication and Conversion in Northern Cameroon* Tomas Sundnes Drønen, 2009-08-31 Was modern Christian mission to Africa primarily a colonial project and a civilizing mission or was it a spiritual revival spreading to new areas This book tells the tale of the Dii people in northern Cameroon and describes their encounter with Norwegian missionaries Through archival studies and through fieldwork among the Dii an intriguing scenario is presented Whereas the missionaries describe their mission as one of spiritual liberation and the Dii highlight the social liberation they received through literacy and political independence the author shows how both spiritual and social changes were results of captivation miscommunication and constant negotiations between the two parties *Protestantisme et colonisation. L'évolution du discours de la mission protestante française au XXe siècle* FABRE Frédéric, 2011-07-19 *Religion,*

Colonization and Decolonization in Congo, 1885-1960. Religion, colonisation et décolonisation au Congo, 1885-1960 Vincent Viaene, Bram Cleys, Jan De Maeyer, 2020-10-30 Religion in today's Democratic Republic of Congo has many faces from the overflowing seminaries and Marian shrines of the Catholic Church to the Islamic brotherhoods from the healers of Kimbanguism to the televangelism of the booming Pentecostalist churches in the great cities from the Orthodox communities of Kasai to the invisible Mai Mai warriors in the brousse of Kivu During the colonial period religion was no less central to people's lives than it is today More surprisingly behind the seemingly smooth facade of missions linked closely to imperial power faith and worship were already marked by diversity and dynamism tying the Congo into broader African and global movements The contributions in this book provide insight into the multifaceted history of the interaction between religion and colonization The authors outline the institutional political framework and focus on the challenge that old and new forms of slavery entailed for the missions The atrocities committed at the time of the Congo Free State became an existential question for young Christian communities In the Belgian Congo after 1908 more structural forms of colonial violence remained a key issue marking religious experiences And yet religion also acted as a bridge The authors emphasize the role intermediaries such as catechists or medical assistants played in the African appropriation of Christianity They examine the complex interaction with indigenous religious beliefs and practices and zoom in on the part religions played in the independence movement as well as on their reaction to independence itself Coming at a moment when Belgium confronts its colonial past this volume provides a timely reassessment of religion as a key factor

Mission & Science Carine Dujardin, Claude Prudhomme, 2015-03-26 Science as an instrument to justify religious missions in secular society The relationship between religion and science is complex and continues to be a topical issue However it is seldom zoomed in on from both Protestant and Catholic perspectives By doing so the contributing authors in this collection gain new insights into the origin and development of missiology Missiology is described in this book as a project of modernity a contemporary form of apologetics Scientific apologetics was the way to justify missions in a society that was rapidly becoming secularized Mission Science deals with the interaction between new scientific disciplines historiography geography ethnology anthropology linguistics and new scientific insights Darwin's evolutionary theory heliocentrism as well as the role of the papacy and what inspired missionary practice first in China and the Far East and later in Africa The renewed missiology has in turn influenced the missionary practice of the twentieth century guided by apostolic

policy Some missionary scholars have even had a significant influence on the scientific discourse of their time

Protestant Missions and Local Encounters in the Nineteenth and Twentieth Centuries Hilde Nielssen, Inger Marie Okkenhaug, Karina Hestad-Skeie, 2011-07-27 This book makes visible an important but largely neglected aspect of Christian missions its transnational character An interdisciplinary group of scholars present case studies on missions and individual missionaries unified by a common vision of expanding a Christian Empire to the ends of the world Examples range from Madagascar South Africa Palestine Turkey Tibet Germany Norway the Netherlands Canada and Britain Engaging in activities from education health care and development aid to religion ethnography and collection of material culture Christian missionaries considered themselves as global actors working for the benefit of common humanity Yet the missionaries came from and operated within a variety of nation states Thus this volume demonstrates how processes on a national level are closely linked to larger transnational processes Mission et engagement politique après 1945 Caroline Sappia, Olivier Servais, 2010 En s'inscrivant dans un contexte étranger avec le bagage de son pays d'origine le missionnaire emporte avec lui un mode de vie en société et une conception du monde Les rencontres missionnaires affectent donc la vie de la cité elles sont dans ce sens minemment politiques Les acteurs de la mission comme individus ou comme congrégations ont joué un rôle ayant des incidences sur la vie politique des populations locales au sens large Parfois ce rôle a été politique au sens partisan du terme Ce livre interroge l'évolution des rapports entre missions et politique dans la seconde moitié du XX^e siècle Le contexte est alors aux luttes d'indépendance la décolonisation la chute des vocations missionnaires et la déchristianisation de la société Dans cette ambiance de crise du colonialisme apparaissent alors des questions politiques concernant aussi bien les missionnaires que les puissances Fidei Donum Faut-il partir Faut-il rester Ce débat prend notamment une teinte très politique Certains missionnaires répondent ces questions en prenant une position développementaliste qui se focalise moins sur la religion elle-même que sur la situation socio-économique et politique des pays dits de mission indépendances africaines et asiatiques dictatures latino-américaines contexte de guerre froide de lutte anticomuniste voire antiprotestante ou anticatholique en fonction du contexte où l'on se trouve Cette option se traduit souvent par un engagement politique des missionnaires plus explicites qu'auparavant La question de savoir comment ces investissements politiques se sont concrétisés sur le terrain ou en amont du travail missionnaire est au centre de ce volume Celui-ci est le fruit du colloque du CREDIC Centre de recherches européennes sur la diffusion et l'inculturation du christianisme qui s'est tenu Bruxelles en août 2009

Fealty and Fidelity: The Lazarists of Bourbon France, 1660-1736 Seán Alexander Smith, 2016-03-09 The career of the French saint Vincent de Paul has attracted the attention of hundreds of authors since his death in 1660 but the fate of his legacy entrusted to the body of priests called the Congregation of the Mission Lazarists remains vastly neglected De Paul spent a lifetime working for the reform of the clergy and the evangelization of the rural poor After his death his ethos was universally lauded as one of the most important elements in the regeneration of the French church but what happened to this

ethos after he died This book provides a thorough examination of the major activities of de Paul s immediate followers It begins by analysing the unique model of religious life designed by de Paul a model created in contradistinction to more worldly clerical institutes above all the Society of Jesus Before he died de Paul made very clear that fidelity to this model demanded that his disciples avoid the corridors of power However this book follows the subsequent departures from this command to demonstrate that the Congregation became one of the most powerful orders in France The book includes a study of the termination of the little known Madagascar mission which was closed in 1671 This mission replete with colonial scandal and mismanagement revealed the terrible pressures on de Paul s followers in the decade after his demise The end of the mission occasioned the first major reassessment of the Congregation s goals as a missionary institute and involved abandoning some of the goals the founder had nourished The rest of the book reveals how the Lazarists recovered from the setbacks of Madagascar famously becoming parish priests of Louis XIV at Versailles in 1672 From then on fealty to Louis XIV gradually trumped fidelity to de Paul The book also investigates the darker side of the Congregation s novel alliance with the monarch by examining its treatment of Huguenot prisoners at Marseille later in the century and its involvement with the slave trade in the Indian Ocean This study is a wide ranging investigation of the Lazarists activities in the French Empire ultimately concluding that they eclipsed the Society of Jesus Finally it contributes new information to the literature on Louis XIV s prickly relationship with religious agents that will surprise historians working in this area

Daughton,2006-11-02 Between 1880 and 1914 tens of thousands of men and women left France for distant religious missions driven by the desire to spread the word of Jesus Christ combat Satan and convert the world s pagans to Catholicism But they were not the only ones with eyes fixed on foreign shores Just as the Catholic missionary movement reached its apex the young staunchly secular Third Republic launched the most aggressive campaign of colonial expansion in French history Missionaries and republicans abroad knew they had much to gain from working together but their starkly different motivations regularly led them to view one another with resentment distrust and even fear In *An Empire Divided* J P Daughton tells the story of how troubled relations between Catholic missionaries and a host of republican critics shaped colonial policies Catholic perspectives and domestic French politics in the tumultuous decades before the First World War With case studies on Indochina Polynesia and Madagascar *An Empire Divided* the first book to examine the role of religious missionaries in shaping French colonialism challenges the long held view that French colonizing and civilizing goals were shaped by a distinctly secular republican ideology built on Enlightenment ideals By exploring the experiences of Catholic missionaries one of the largest groups of French men and women working abroad Daughton argues that colonial policies

were regularly wrought in the fires of religious discord that indigenous communities exploited in responding to colonial rule After decades of conflict Catholics and republicans in the empire ultimately buried many of their disagreements by embracing a notion of French civilization that awkwardly melded both Catholic and republican ideals But their entente came at a price with both sides compromising long held and much cherished traditions for the benefit of establishing and maintaining authority Focusing on the much neglected intersection of politics religion and imperialism Daughton offers a new understanding of both the nature of French culture and politics at the fin de siecle as well as the power of the colonial experience to reshape European s most profound beliefs
