Hiz,2012-12-06 To the philosopher the logician and the linguist questions have a special fascination The two main views of language that it describes the world and that it expresses thought are not directly applicable to questions Questions are not assertions A question may be apt sharp to the point important or it may be inappropriate ambiguous awkward irrelevant or irreverent But it cannot be true or false It does not have a truth value not just because an utterance like Was the letter long does not indicate which letter is being talked about The indicative The letter was not long has the same indeterminacy In actual context the anaphoric definite article will be resolved both for a question and for an indicative sentence Contextual resolutions are easily found for most cross references A question cannot be either true or it does not describe a state of affairs Neither does it express false because thought because it is an expression of suspended thought of lack of judgment To dress it in other philosophical styles a question is not a judgment it is not a proposition it is not an assertion A philosopher may try to paraphrase a question as an indicative sentence for instance as a statement of ignorance or as a statement of the desire to know Hintikka Wachowicz and Lang explore this territory Or he may interpret it as a meta statement intimating the direction in which the flow of the discourse is going **CBSE Class 12 Mathematics Handbook - MINDMAPS, Solved Papers, Objective Question Bank & Practice Papers** Disha Experts,2019-07-02 The book CBSE Class 12 Mathematics Handbook MINDMAPS Solved Papers Objective Question Bank Practice Papers is one of the best ways to understand and prepare for the CBSE Board Exam The book consists of 1 2019 Solved Paper 2 2018 Solved paper along with CBSE
