

FROG DISSECTION

.....NAME

Dissection Instructions

1. Place the frog in the dissecting pan ventral side up.
2. Use scissors to lift the abdominal muscles away from the body cavity. Cut along the midline of the body from the pelvic to the pectoral girdle.
3. Make transverse (horizontal) cuts near the arms and legs.
4. Lift the flaps of the body wall and pin back.

*If your specimen is a female, the body may be filled with eggs and an enlarged ovary. You may need to remove these eggs to view the organs.

Locate each of the organs below. Check the box to indicate that you found the organs.

Fat Bodies --Spaghetti shaped structures that have a bright orange or yellow color, if you have a particularly fat frog, these fat bodies may need to be removed to see the other structures. Usually they are located just on the inside of the abdominal wall.

☐

Peritoneum A spider web like membrane that covers many of the organs, you may have to carefully pick it off to get a clear view

☐

Liver--The largest structure of the the body cavity. This brown colored organ is composed of three parts, or lobes. The **right lobe**, the **left anterior lobe**, and the **left posterior lobe**. The liver is not primarily an organ of digestion, it does secrete a digestive juice called bile. Bile is needed for the proper digestion of fats.

☐

Heart - at the top of the liver, the heart is a triangular structure. The **left and right atrium** can be found at the top of the heart. A single **ventricle** located at the bottom of the heart. The large vessel extending out from the heart is the **conus arteriosis**.

☐

Lungs - Locate the lungs by looking underneath and behind the heart and liver. They are two spongy organs.

☐

Gall bladder--Lift the lobes of the liver, there will be a small green sac under the liver. This is the gall bladder, which stores bile. (hint: it kind of looks like a bogie)

☐

Stomach--Curving from underneath the liver is the stomach. The stomach is the first major site of chemical digestion. Frogs swallow their meals whole. Follow the stomach to where it turns into the small intestine. The **pyloric sphincter valve** regulates the exit of digested food from the stomach to the small intestine.

☐

EdPsych Modules Cheryl Cisero Durwin,Marla

Reese-Weber,2024-12-16 EdPsych Modules uses an innovative modular approach integrating case studies drawn from real life classroom situations to address the challenge of effectively connecting theory and research to practice The Fifth Edition includes thorough coverage of the latest developments in education such as artificial intelligence virtual reality the latest neuroscience research and updated coverage of disabilities [Chapter Resource 33 Fishes and Amphibians Biology Holt](#) Rinehart & Winston,Holt, Rinehart and Winston Staff,2004 **The Resilience Workbook for Teens** Cheryl M.

Bradshaw,2019-05-01 It s time to realize your full potential In The Resilience Workbook for Teens you ll learn to bounce back from setbacks develop grit and a growth mindset and overcome any obstacle that comes your way Social media online ads and glossy magazines make it look easy to be a teen everyone seems to be laughing sun kissed beautiful surrounded by friends and wearing the perfect clothes But if you re like most teens and young adults reality doesn t look like a magazine ad lifestyle blog or Instagram feed You may struggle with not fitting in or being bullied You may feel overwhelmed by stress experience a significant setback or lose a parent or loved one That s why it s so important to build resilience the cornerstone of mental health and wellness This workbook will show you how In The Resilience Workbook for Teens author psychotherapist and youth mentor Cheryl M Bradshaw will show you that the key to building resilience lies in your relationship with yourself Through activities and interactive exercises you ll learn to balance your emotions rewrite the negative stories you tell yourself embrace who you are and believe in your own power to bounce back from life s biggest challenges The teen years are a critical time to learn the skills of resilience and to develop positive strategies for coping with stress and mental health challenges Let this fun and friendly workbook guide you as you build your own resilience It s a gift you ll take with you beyond high school and well into adulthood **Graduate Research in Urban Education and Related**

Disciplines ,1992 *Designing Learning for Tablet Classrooms* Donovan R. Walling,2014-02-04 The versatile cost effective technology of the tablet computer has proved to be a good fit with the learning capabilities of today s students Not surprisingly in more and more classrooms the tablet has replaced not only traditional print materials but the desktop computer and the laptop as well Designing Instruction for Tablet Classrooms makes sense of this transition clearly showing not just how and why tablet based learning works but how it is likely to evolve Written for the non technical reader it balances elegant theoretical background with practical applications suitable to learning environments from kindergarten through college A wealth of specialized topics ranges from course management and troubleshooting to creating and customizing etextbooks from tablet use in early and remedial reading to the pros and cons of virtual field trips And for maximum usefulness early chapters are organized to spotlight core skills needed to negotiate the new design frontier including Framing the learning design approach Analyzing the learning environment Designing learning that capitalizes on

tablet technology Developing activities that match learning needs Implementing the learning design Conducting evaluations before during and after This is proactive reading befitting a future of exciting developments in educational technology For researchers and practitioners in this and allied fields Designing Instruction for Tablet Classrooms offers limitless opportunities to think outside the box The Animal Experimentation Debate David E. Newton,2013-05-09 Reviewing the topic from antiquity to the present day this book examines the debate over the use of animals in research in a fair and balanced way The debate over the use of nonhuman animals in experimental research has gone on for centuries and it continues as vigorously today as it ever has In fact in the last decade the controversy has intensified making animal testing a topic at the highest level of debate of any socioscientific issue in the United States This book presents all sides of the issue so that readers can come to their own conclusions as to the morality and validity of animal experimentation and provides biographies of individuals and descriptions of organizations that have been involved in the debate over the centuries Additionally it documents the historical shift in thinking that made animal experimentation commonplace between the time of the ancient Greeks and the 19th century to the mindset of some who argue for an end to the practice and alternative ways of conducting medical experimentation to benefit human health The American Biology Teacher ,1998 **40 Inquiry Exercises for the College Biology Lab** A. Daniel Johnson,2009 Drawing from the author s own work as a lab developer coordinator and instructor this one of a kind text for college biology teachers uses the inquiry method in presenting 40 different lab exercises that make complicated biology subjects accessible to major and nonmajors alike The volume offers a review of various aspects of inquiry including teaching techniques and covers 16 biology topics including DNA isolation and analysis properties of enzymes and metabolism and oxygen consumption Student and teacher pages are provided for each of the 16 topics *Dilemmas of Science Teaching* John Wallace,William Loudon,2005-06-29 Through the use of case studies and commentaries by senior scholars in the field this unique book provides student teachers with personal and professional insights into some key science education dilemmas
