**Ethical Eye** Jean-François Mattei, Council of Europe, 2001-01-01 Scientific and technological developments are rapidly transforming the world in which we live With progress and change however the human race is faced with new dilemmas Hidden behind the jargon to what extent are we aware of the impact these advances are having on our lives Starting with the human genome the new Ethical eye series looks at the crucial issues behind some of these key

developments In this volume ten international experts look at the topic from different angles providing factual information about what the human genome is how genomic research is affecting industry how it is being used to improve medicine the ethical implications of this research what this research tells us about our origins and our relations to animals and whether the genome should be protected against commercial use

**Preimplantation Embryo Development** Barry D. Bavister, 2012-12-06 This volume contains the Proceedings of the Serono Symposium on Pre implantation Embryo Development held in Newton Massachusetts in 1991 The idea for the symposium grew out of the 1989 Serono Symposium on Fertilization in Mammals at which preimplantation development was the predominant suggestion for a follow up topic This was indeed a timely subject in view of the recent resurgence of interest in this fundamental phase of embryogenesis and its relevance to basic research and applied fertility studies in humans food producing animals and endangered species The symposium brought together speakers from a broad range of disciplines in order to focus on key regulatory mechanisms in embryo development using a wide variety of animal models and on representative topics in human preimplantation embryogenesis The culmination of preimplantation development is a blastocyst containing the first differentiated embryonic tissues and capable of initiating and sustaining pregnancy The central objective of the symposium was to throw light on the regulation of cellular and molecular events underlying blastocyst formation It was particularly appropriate that the date of the symposium marked the 20th anniversary of the publication of the classic volume *Biology of the Blastocyst* the proceedings of an international workshop held in 1970 This book which summarized most of the information then available on this topic in mammals was edited by the pioneer in blastocyst research Dr Richard Blandau who was the guest speaker at the symposium
