In recent years controversy has surrounded the role of top government lawyers in the United States and the United Kingdom. Allegations of bad lawyering and bad ethics in public office over the torture memos in the United States and the political pressure placed on the Attorney General in the United Kingdom to approve the legality of the Iraq war have seen these relatively obscure group of government lawyers thrust into the public debate. Unlike its Anglo American contemporaries Australia's chief legal adviser the Solicitor General has remained largely out of the public eye. This collection provides a rare and overdue insight into a fundamental public institution in all Australian jurisdictions. It provides a historical, theoretical, practical and comparative perspective of this little known but vitally important office at a time when the

transparency and accountability of government has taken on an increased significance Of interest to anyone interested in the integrity of government the book will be particularly useful to government political parties and the academy It will also be a valuable reference work to those working towards a redefinition of the role of top government legal advisors *Perspectives and Opinions in Health Services* Andrea Cioffi,Farshid Alaeddini,Marlena Robakowska,Daniel Ślęzak ,Prestige Tatenda Makanga,Przemysław Żuratyński ,Abdullah Reda,2024-10-16 This Research Topic includes high quality Perspective articles and Opinion articles published in *Frontiers in Health Services* in 2022 The mission of the journal is to ultimately contribute to helping health systems improve both experiences and outcomes of patients and make health systems more efficient Perspective articles aim to present a viewpoint on a specific area within Health Services The articles in this collection may discuss current advances and future directions and clearly present the author s perspective Perspective articles should also provide an accurate presentation and citations of other authors work and may include original data as well as personal insights and opinions
