embodied affectivity that emphasises listening in urban research and design and advances new ways of knowing and making. The guide invites landscape architects and urban designers to become soundscape architects and offers practical advice on sound and listening applicable to each stage of a design project from reading the environment to intervening on it. *Urban Soundscapes* foregrounds listening as an affective mediator between subjects and multispecies environments and a vehicle to think and conceptualise environmental research and design beyond prevailing visual and human centred modes. The guide expands landscape architects and urban designers' tools and skills to assess existing soundscapes, predict how those soundscapes will be altered through their designs, consider sound as a creative and active part of the design process, and envisage how users might perceive and be affected by those soundscapes as they evolve in time. The volume sits in the interface of research and practice and interweaves theoretical, methodological, and creative contributions from acoustic ecology, ecoacoustics, bioacoustics, and sound art. Each of the design stages is illustrated through project examples that demonstrate the many advantages of incorporating attentive listening and sound into Landscape Architecture and Urban Design Practice. This book shows how incorporating listening and sounding as part of the design process promotes slow and subtle ways of practice, adds social and ecological value through the reduction of noise pollution, and by monitoring the health of habitats and enables the design of soundscapes that complement the character and design intent of a scheme and elicit joy and wonder. The book will be of interest to practitioners and academics in landscape architecture and other design and spatial fields such as urban design, architecture, geography, and engineering who play a primary role in the composition of the soundscape.

On Cuddling Phaniel Antwi, 2023-11-20. An urgent and elegant book excavating the many meanings of cuddling under racial capitalism. Lyrical and powerful. Sophie K. Rosa, author of *Radical Intimacy*, will take its place among books by Christina Sharpe, Saidiya Hartman, and Hazel Carby that investigate the violence of intimacy and the intimacy of violence. Jack Halberstam, author of *Wild Things*, ranging from the terrifying embrace of the slave ship's hold to the racist encoding of cuddly toys. *On Cuddling* is a unique combination of essay and poetry that contends with the way racial violence is enacted through intimacy. Informed by Black feminist and queer poetics, Phaniel Antwi focuses his lens on the suffering of Black people at the hands of state violence and racial capitalism. As radical movements grow to advance Black liberation, so too must our ways of understanding how racial capitalism embraces us all. Antwi turns to cuddling, an act we imagine as devoid of violence, and explores it as a tense transfer point of power. Through archival documents and multiple genres of writing, it becomes clear that the racial violence of the state and economy has always been about the mismanagement of intimacies. Phaniel Antwi is Canada Research Chair in Black Arts and Epistemologies. He is a curator, activist, and associate professor at the University of British Columbia.
