The origins of the large estate of Carolingian Europe and the role it played in the evolution of Frankish society and economy are the themes of this volume The first group of articles focus on documentary evidence especially the polyptychs and their interpretation Though there is insufficient material for any true quantitative history Professor Devroey argues that the evidence points to demographic expansion coupled with the exploitation of new agricultural methods and crops and a reliance on the family as the unit of production Further studies relate these estates to the commercial networks of the area from a local to an international level

A final concern is to demonstrate that the large estate formed a key component of the Carolingian rulers aim to establish the bonum commune and a stable society with assured food supplies regulated markets and a just system of weights and measures L origine du grand domaine de l Europe carolingienne et le r le qu il jouait dans l volution de la soci t et de l conomie du monde franc sont les th mes de ce volume Le premier groupe d articles se concentre sur des documents et plus sp cialement sur les polyptyques et leur interpr tation Bien qu il n y ait pas de mat riel suffisant pour une histoire quantitative le professeur Devroey soutient que tout indique une expansion d mographie laquelle viennent s ajouter l exploitation de nouvelles m thodes agricoles et de r coltes ainsi qu une d pendance vis vis de la famille en tant qu unit de production Des tudes suppl mentaires font le lien entre ces propri t s et les r seaux commerciaux de cette partie du monde du niveau local au niveau international L auteur s efforce finalement de d montrer que le grand domaine tait un des facteurs la base de la volont des dirigeants carolingiens d instaurer le bonum commune et une soci t stable avec des approvisionnements assur s des march
