

#### Question 4 of 17

True or false. Hardware, software, data, and networks make up information systems.

True

False

Correct. Hardware, software, data, and networks make up information technology--not information systems. People, processes, machines, and information technology make up information systems.

#### Question 5 of 17

Frank works for a small landscaping company. He is trying to convince the owner to invest in information technology. Which of the following justifications should he use when he approaches his boss?

The owner will immediately begin saving money.

The owner can better protect the privacy of his customer data.

The owner can have better communications with customers.

Correct. Information technology improves business communication with customers and suppliers. Improved communication improves a company's competitive advantage.

#### Question 6 of 17

True or false. One positive impact of information technology is the increasing number of jobs that are becoming available for the disabled.

True

False

Correct. Information technology is having a positive impact on the availability of jobs for the disabled because it easier for disabled employees to take advantage of opportunities such as telecommuting, online shopping and banking, entertainment, relationships, and e-learning.

#### Question 7 of 17
