Step by step procedures for using ETEdit are provided in Chapter 5. Although ETEdit is primarily an editing tool for use with various software applications it can also be used as a stand alone application or in tandem with another application. It provides force module data that allow you to display and modify movement requirements as well as to display the requirement line numbers RLNs for both detail and parent hierarchy. The primary purpose of ETEdit is to make changes to TPFDDs. Because it has been designed as a separate application you can apply the ETEdit capabilities for use with other models.
