Abordagens e experiências na preservação do patrimônio cultural nas Américas e Península Ibérica Marcos José de A. Pinheiro, Claudia S. Rodrigues de Carvalho, Carla Maria Teixeira Coelho, 2021-02-10 O livro resultado do trabalho de profissionais que atuam em diferentes áreas do patrimônio cultural nas Américas e Península Ibérica movidos por interesses trajetórias e contextos distintos que se entrelaçam em momentos e encerram causas comuns e consensos dos quais destaca-se o valor central que o compartilhamento de suas experiências práticas e conhecimentos a compreensão comum de que a preservação e a valorização do patrimônio cultural pressupõem aprender e avançar juntos solidariamente e a percepção que se transforma em responsabilidade do quanto toda a humanidade pode ser afetada a partir da perda de um bem ou de uma manifestação cultural local

No specimen left behind: mass digitization of natural history collections Vincent Smith, 2012-07-20 Centuries of exploration and discovery have documented the diversity of life on Earth Records of this biodiversity are for the most part distributed across varied and distinct natural history collections worldwide This makes the task of extracting and mobilising the information within these collections an immense challenge In this special issue of ZooKeys 18 papers by 81 authors examine progress and prospects for mass digitising entire natural history collections These papers provide a snapshot of activity in what is a fast moving field that is seeing ever increasing degrees of collaboration across disciplines and between collection based institutions Examples of research covered by these articles include a description to efforts to digitise 30 million plant invertebrate and vertebrate specimens at NCB Naturalis in the Netherlands new scanning and telemicroscopy solutions to digitise the millions of pinned insect specimens held in the Australian National Insect Collection and its European and North American counterparts citizen science projects being used to crowdsource the transcription of thousands of specimen labels and field notebooks and new data portals providing central access to millions of biological specimens across Europe Many of these projects deal with the unique challenges associated with major collections that have built up over several centuries with different communities of practices and different user communities Despite many differences standards for collection acquisition preservation and documentation are broadly consistent meaning that there is sufficient common ground to bring together the enormous amounts of data that are being exposed through mass digitisation efforts These data will become the new frontier for natural history collection management and research in the next decade
