RESPONSIBILITY ,2024 **Business Ethics and Social Responsibility** Joseph Eisenhauer, Lawrence Zeff, 2023-11-25 Fr Gerald F Cavanagh S J has been widely recognized as one of the founders of the field of business ethics as well as a leader in bringing Catholic Social Teaching to bear on this academic discipline One of his principal insights has been that business as the most powerful agency in society can and should be a force for positive societal change rather than deferring that responsibility to government This volume collects his most significant contributions to the discipline from the mid 1960s to the early 2020s into a single convenient reference work To show the development of his thought on various issues pertaining to the broad subject of business ethics the chapters are organized into five major themes diversity equity and inclusion the dignity of work personal values and spirituality in the workplace ethical norms and organizational values corporate social responsibility and business ethics in the college curriculum Building the Responsible Enterprise Sandra

Waddock, Andreas Rasche, 2012-06-13 Building the Responsible Enterprise provides students and practitioners with a practical yet academically rooted introduction to the state of the art in sustainability and corporate social responsibility The book consists of four parts highlighting different aspects of corporate responsibility Part I discusses the context in which corporate responsibility occurs Part II looks at three critical issues the development of vision at the individual and organizational levels the integration of values into the responsible enterprise and the ways that these building blocks create added value for a firm Part III highlights the actual management practices that enable enterprises to achieve excellence focusing on the roles that stakeholder relationships play in improving performance The book concludes with a conversation about responsible management in the global village examining the emerging infrastructure in which enterprise finds itself today Throughout the text cases exemplify key concepts and highlight companies that are guiding us into tomorrow's business environment **Exploring Management** John R. Schermerhorn, Jr., Daniel G. Bachrach, 2017-10-16 Exploring

Management supports teaching and learning of core management concepts by presenting material in a straightforward conversational style with a strong emphasis on application With a focus on currency high interest examples and pedagogy that encourages critical thinking and personal reflection Exploring Management is the perfect balance between what students need and what instructors want A Companion to Business Ethics Robert E. Frederick, 2008-04-15 In a series of

articles specifically commissioned for this volume some of today's most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics Sections of the book cover topics such as the often easy relation between business ethics and capitalism the link between business ethics and ethical theory how ethics applies to specific problems in the business world the connection between business ethics and related academic disciplines and the practice of business ethics in modern corporations Includes extensive accessible discussion of all of the main areas of interest and debate in business ethics Features all original contributions by distinguished authors in business ethics Includes an annotated table of contents bibliographies of the relevant literature and a list of internet sources of material on business ethics Perfect comprehensive book for use in business ethics courses

Values, Nature, and Culture in the American Corporation William C. Frederick, 1995 In *Values Nature and Culture in the American Corporation* distinguished ethicist William Frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically He begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension The first is the need for managers to efficiently allocate resources for maximum profits The second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake The third is the desire for people in the community to create relationships that will perpetuate these communities Frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion In the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology

Human Rights and the Ethics of Globalization Daniel E. Lee, Elizabeth J. Lee, 2010-09-13 *Human Rights and the Ethics of Globalization* provides a balanced thoughtful discussion of the globalization of the economy and the ethical considerations inherent in the many changes it has prompted The book's introduction maps out the philosophical foundations for constructing an ethic of globalization taking into account both traditional and contemporary sources These ideals are applied to four specific test cases the ethics of investing in China the case study of the Firestone company's presence in Liberia free trade and fair trade issues pertaining to the coffee trade with Ethiopia and the use of low wage factories in Mexico to serve the US market The book concludes with a comprehensive discussion of how to enforce global compliance with basic human rights standards with particular attention to stopping abuses by multinational corporations through litigation under the Alien Tort Claims Act

Corporate Responsibility Archie B. Carroll, Kenneth J. Lipartito, James E. Post, Patricia H. Werhane, 2012-08-30 This thought provoking history of corporate responsibility in the USA is a landmark publication documenting the story of corporate power and business behavior from the mid eighteenth century to the modern day It shows how the idea of corporate responsibility has evolved over time with the roles responsibilities and performance of corporations coming increasingly under the spotlight as new norms of transparency and accountability emerge Today it is expected that a corporation will be transparent in its operations that it will reflect ethical values that are broadly shared by others in society

and that companies will enable society to achieve environmental sustainability as well as a high standard of living As we enter the second decade of the twenty first century the social political and economic landscape is once again shifting the need for an informed public conversation about what is expected of the modern corporation has never been greater
