**The British National Bibliography** Arthur James Wells, 2007

**Germany, 1871-1945** Raffael

Scheck, 2008-10-01 Germany 1871 1945 presents an original lucid and thought provoking history Its aim is to inspire readers to weigh the historical evidence At the end of the Second World War the first unified German state collapsed a disintegration with European and global ramifications Ever since historians have sought to explain what went wrong in German history Many have focused on the violence which forged unification others have highlighted the clash of authoritarian anti

democratic and anti Semitic traditions with rapid industrialization and modernization Germany 1871 1945 presents a pragmatic interpretation of German history from the unification to the end of the Nazi regime This more open approach acknowledges the strong trend in German society towards modernization and democratization particularly before 1914 while also highlighting the factors which propelled Germany toward World War I The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and early 1930s Finally a detailed assessment of the Third Reich explains how the regime s early successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable

*Sourcebook of Test Items for the Advanced Placement Program in American History* University of the State of New York,1962 *The Hitler Years: Triumph, 1933-1939* Frank McDonough,2021-06-22 From historian Frank McDonough the first volume of a new chronicle of the Third Reich under Hitler s hand On January 30th 1933 Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg Within a few months he had installed a dictatorship jailing and killing his leftwing opponents terrorizing the rest of the population and driving Jews out of public life He embarked on a crash program of militaristic Keynesianism reviving the economy and achieving full employment through massive public works vast armaments spending and the cancellations of foreign debts After the grim years of the Great Depression Germany seemed to have been reborn as a brutal and determined European power Over the course of the years from 1933 to 1939 Hitler won over most of the population to his vision of a renewed Reich In these years of domestic triumph cunning maneuvers pitting neighboring powers against each other and biding his time we see Hitler preparing for the moment that would realize his ambition But what drove Hitler s success was also to be the fatal flaw of his regime a relentless belief in war as the motor of greatness a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism
