

H.O.P.E

9. Blocks, P , Q and R , connected by light inextensible threads, are placed on a smooth horizontal surface as shown. A constant force F is applied to P so that the whole system travels to the right with acceleration.

A lump of plasticine is placed on Q and it moves together with Q . If the applied force F remains unchanged, how would the tensions T_1 and T_2 in the two threads change?

	Tension T_1	Tension T_2
A.	increase	decrease
B.	increase	increase
C.	decrease	decrease
D.	decrease	increase

$$F - T_1 = \frac{F}{3}$$

$$T_1 = \frac{2}{3} F$$

Hkdse Physics Practice Paper

Y. M. Yeung

Hkdse Physics Practice Paper:

Physics Exam-builder for HKDSE Y. M. Yeung, 2012-05-01 Book 3 is written for the compulsory part Wave Motion It is a useful supplement to textbook The questions appear in the order of the syllabus for easy reference All questions are carefully selected to cover various question types requiring different levels of skills Solutions to calculations and explanations of different options in most multiple choice questions and full marking schemes for conventional questions are provided to help students consolidate their concepts and master their skills in answering examination type questions **Physics**

Exam-builder for HKDSE Y. M. Yeung, 2012-01-01 Book 2 covers the topics of Mechanics which is a foundation of Physics for many other topics The name Force and Motion is used by the HKEAA for this section of the syllabus In a sense this reflects some changes in the methodology in teaching and learning It takes time for students to grasp the concepts and master the necessary skills in solving problems To make learning Physics more interesting I have included relevant questions related to our everyday experience and new happenings such as the docking of the Tiangong 1 space module with Shenzhou 8 spacecraft and the Wenzhou Train Accident **Studies in Science Education in the Asia-Pacific Region** May

May Hung Cheng, Alister Jones, Cathy Bunting, 2017-09-13 Consistent with international trends there is an active pursuit of more engaging science education in the Asia Pacific region The aim of this book is to bring together some examples of research being undertaken at a range of levels from studies of curriculum and assessment tools to classroom case studies and investigations into models of teacher professional learning and development While neither a comprehensive nor definitive representation of the work that is being carried out in the region the contributions from China Hong Kong Taiwan Korea Japan Singapore Australia and New Zealand give a taste of some of the issues being explored and the hopes that researchers have of positively influencing the types of science education experienced by school students The purpose of this book is therefore to share contextual information related to science education in the Asia Pacific region as well as offering insights for conducting studies in this region and outlining possible questions for further investigation In addition we anticipate that the specific resources and strategies introduced in this book will provide a useful reference for curriculum developers and science educators when they design school science curricula and science both pre service and in service teacher education programmes The first section of the book examines features of science learners and learning and includes studies investigating the processes associated with science conceptual learning scientific inquiry model construction and students attitudes towards science The second section focuses on teachers and teaching It discusses some more innovative teaching approaches adopted in the region including the use of group work inquiry based instruction developing scientific literacy and the use of questions and analogies The third section reports on initiatives related to assessments and curriculum reform including initiatives associated with school based assessment formative assessment strategies and teacher support accompanying curriculum reform **The World of Science Education**, 2010-01-01 Each volume in the 7 volume series

The World of Science Education reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, Arab States and Sub-Saharan Africa. The focus of this Handbook is on science education in Asia and the scholarship that most closely supports this program. The reviews of the research situate what has been accomplished within a given field in an Asian rather than an international context. The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education. The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts. The approach allows readers to review what has been done and accomplished, what is missing, and what might be done next.

Physics Exam-builder for HKDSE Y. M. Yeung, 2012-09-01

Book 4 covers the compulsory topics Electricity, Magnetism and Radioactivity, Nuclear Energy, with extension questions clearly marked so that they are also suitable for candidates taking Combined Science with Physics component. It is a useful supplement to textbooks. The questions appear in the order of the syllabus for easy reference. All questions are carefully selected to cover various question types requiring different levels of skills.

Physics Exam-builder for HKDSE Y. M. Yeung, 2014-10-01

This book covers the elective module Medical Physics of the HKDSE the Hong Kong Diploma of Secondary Education Examination Physics Examination. It contains comprehensive notes of the relevant knowledge for the examination so that it can be used as a coursebook as well. It contains a wealth of multiple choice questions and structured questions in examination format with detailed solutions to help students consolidate their concepts and master their skills.

Physics Exam-builder for HKDSE Y. M. Yeung, 2015-09-07

This book covers the elective module Astronomy and Space Science of the HKDSE the Hong Kong Diploma of Secondary Education Examination Physics Examination. It contains comprehensive notes of the relevant knowledge for the examination so that it can be used as a coursebook as well. It contains a wealth of multiple choice questions and structured questions in examination format with detailed solutions to help students consolidate their concepts and master their skills. The book is written in accordance to the Fine-tuned HKDSE Syllabus suitable for the 2016 HKDSE Physics Examination and onward.

Physics Exam-builder for HKDSE Y. M. Yeung, 2014-02-01

This book covers the elective module Energy Use of Energy of the HKDSE the Hong Kong Diploma of Secondary Education Examination Physics Examination. It contains comprehensive notes of the relevant knowledge for the examination so that it can be used as a coursebook as well. It contains a wealth of multiple choice questions and structured questions in examination format with detailed solutions to help students consolidate their concepts and master their skills.

Physics Exam-builder for HKDSE Y. M. Yeung, 2016-09-01

The second edition of this book series Physics Exam Builder for HKDSE is written in accordance with the amended NSS physics curriculum guidelines for 2016 HKDSE and onwards. The questions are carefully selected to follow the format and depth of treatment required in the DSE examination. They are arranged in a logical and systematic way in the same order as the HKDSE examination syllabus for easy reference. Similar items are grouped together so that by working

through the questions students can grasp the concept of a particular topic *Physics Exam-builder for HKDSE* Y. M. Yeung, 2013-05-01 This book covers the elective module Atomic World of the HKDSE the Hong Kong Diploma of Secondary Education Examination Physics Exam It contains comprehensive notes of the relevant knowledge for the examination so that it can be used as a coursebook as well It contains a wealth of multiple choice questions and structured questions in examination format with detailed solutions to help students consolidate their concepts and master their skills Thorough understanding of the questions will help students build up their confidence in taking the DSE Examination **Physics** K. Y. Chung, 2011 *Effective Exam Practice for the HKDSE in Physics* C. S. Siu (Kenneth), 2013 **Physics Exam-builder for HKDSE** Y. M. Yeung, 2020-12-21 Book 4 deals with the topics on the section electricity and magnetism which carries a substantial weight on the HKDSE syllabus and examination Electricity plays an important role in the modern world in every sector of human activities Every person nowadays has to use electrical appliances every day Some general knowledge about electrical safety is essential As a subject learning this topic at DSE level lays the foundation for further studies in the field of science engineering and other innovative technological development It is customary to name this section of the syllabus as electricity and magnetism In fact there is a close relationship between them An electric current produces a magnetic field and magnetic fields interact to produce magnetic forces in motors A changing magnetic field produces an induced e.m.f. which is the basic physics principle underlying the production of electricity using a.c. generators in power stations The magnetism of a permanent magnet is in fact due to atomic currents caused by orbiting and spinning electrons Hence except for static charges the name electromagnetism is used to describe various phenomena relating currents changing currents magnetic fields and changing magnetic fields **Physics for HKDSE** K.
