

The background of the book cover is a landscape painting. It depicts a dense forest of tall, thin trees with green foliage. A path or clearing leads from the foreground towards the water. In the foreground, there is a body of water with a greenish-blue hue. A horizontal band of yellowish-green, possibly reeds or a different type of vegetation, separates the water from the forest. The overall style is that of a classical landscape painting.

Hobbes A Very Short Introduction

Alan Haworth

Hobbes A Very Short Introduction:

Hobbes: A Very Short Introduction Richard Tuck, 2002-05-30 Thomas Hobbes the first great English political philosopher has long had the reputation of being a pessimistic atheist who saw human nature as inevitably evil and proposed a totalitarian state to subdue human failings In this illuminating study Richard Tuck re evaluates Hobbes s philosophy and dispels these myths revealing him to have been passionately concerned with the refutation of scepticism and to have developed a theory of knowledge which rivalled that of Descartes in its importance ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Free Will: A Very Short Introduction

Thomas Pink, 2004-06-24 Every day we seem to make and act upon all kinds of free choices but are these choices really free Or are we compelled to act the way we do by factors beyond our control This book looks at free will **Hobbes's Creativity** James J. Hamilton, 2023-05-15 This book approaches Hobbes s philosophy from a completely new perspective his creativity Creativity is the production of something which experts consider to be original valuable and of high quality James Hamilton explores Hobbes s creativity by focusing on his development personality and motivation in the context of his culture and environment and on the ways in which he thought creatively as inferred from his writings Identification of the ideas which Hobbes drew upon is an important part of the study for two reasons First they are necessary to determine which of Hobbes s ideas and theories are original and which are not Second analysis of his creativity requires an understanding of the ideas from which he drew Hamilton concludes that Hobbes became a great philosopher because of his creative virtuosity

Understanding the Political Philosophers Alan Haworth, 2012-03-29 Understanding the Political Philosophers is an absorbing and accessible introduction to the major philosophers and core texts of western political philosophy Organised historically beginning with Socrates and Plato and concluding with post Rawlsian theory Alan Haworth presents the key ideas and developments with clarity and depth Each chapter provides a concentrated study of a given thinker or group of thinkers and together they constitute a broad account of the main arguments in political philosophy There are chapters on Socrates Plato Aristotle Hobbes Locke Rousseau the Utilitarians Marx and Rawls s early work This revised second edition has been brought fully up to date and includes expanded coverage of the period from the death of Aristotle to the sixteenth century as well as a new chapter on Rawls s later philosophy and the direction of post Rawlsian philosophy Including a chronology and suggestions for further reading Understanding the Political Philosophers is an ideal introductory text for students taking courses in political philosophy or political theory *Republic* Alice Hunt, 2024-09-24 An enthralling narrative of the rise and fall of Britain s republican experiment DOMINIC SANDBROOK The Times Best History Books of 2024 A gripping tale of political and cultural crisis but also one of joy and hopeful innovation told with eloquence and passion MALCOLM GASKILL

Magisterial compelling and eye opening SUZANNAH LIPSCOMB Events moved with giddy speed in the 1650s After the execution of Charles I dangerous monarchy was abolished and the House of Lords was dismissed sending shock waves across the kingdom These revolutionary acts set in motion a decade of bewildering change and instability under the leadership of the soldier statesman Oliver Cromwell England s unique and distinctive republican experiment may have been short lived but it changed the course of British history It transformed the relationship between England Scotland and Ireland reset the compact between the monarch and the people and re fashioned the story the British told and continue to tell about themselves REPUBLIC is a richly engrossing year by year account of this exhilarating and daring period It tells the story of what Britain s republic was really like why it failed but also what it got right

Justice and Popular Culture George A. Gonzalez,2019-07-18 This book examines how the Star Trek franchise does more than reflect and depict the political currents of the times Gonzalez argues that Star Trek also presents an argument as to what constitutes a just stable thriving society By analyzing Star Trek this book argues that in order to obtain true democracy and justice the productive forces of society must be geared toward achieving a thriving society the whole individual and the environment This dialectic is consonant with the notions of revolutionary change progress postulated by Karl Marx and examined within this text The book concludes that the only way to hope to avoid a planetary cataclysm is through justice more specifically communism as a concept of justice

My Revision Notes: Edexcel AS/A-level History: Britain, 1625-1701: Conflict, revolution and settlement David Farr,2017-04-24 Exam Board Edexcel Level AS A level Subject History First Teaching September 2015 First Exam June 2016 Target success in Edexcel AS A level History with this proven formula for effective structured revision key content coverage is combined with exam preparation activities and exam style questions to create a revision guide that students can rely on to review strengthen and test their knowledge Enables students to plan and manage a successful revision programme using the topic by topic planner Consolidates knowledge with clear and focused content coverage organised into easy to revise chunks Encourages active revision by closely combining historical content with related activities Helps students build practise and enhance their exam skills as they progress through activities set at three different levels Improves exam technique through exam style questions with sample answers and commentary from expert authors and teachers Boosts historical knowledge with a useful glossary and timeline

A Critical Legal Examination of Liberalism and Liberal Rights Matthew McManus,2020-11-23 This book has two aims First to provide a critical legal examination of the liberal state and liberal rights in the law and secondly to present a systematic alternative to liberal approaches to both the law and rights grounded in a left wing conception of human dignity At the opening of the 21st century a remarkable thing happened Liberalism once considered the only doctrine left standing at the end of history began to face renewed competition from both the political left and the post modern conservative right This book argues that the way forward is not to abandon but to radicalize the potential of the liberal project Analysing major theoretical positions in order to build a critical genealogy of liberal rights

McManus lucidly develops a left wing alternative to the classic liberal approach to rights drawing on the traditions of liberal egalitarians and deliberative democracy theory Societies he argues should be committed to advancing the human dignity of all through the enshrinement of certain rights into positive state law the expansion of democracy and a resolute commitment to economic equality

The Political Theory of Liberal Socialism Matthew McManus, 2024-11-22 McManus presents a comprehensive guide to the liberal socialist tradition stretching from Mary Wollstonecraft and Thomas Paine through John Stuart Mill to Irving Howe John Rawls and Charles Mills Providing a comprehensive critical genealogy of liberal socialism from a sympathetic but critical standpoint McManus traces its core to the Revolutionary period that catalyzed major divisions in liberal political theory to the French Revolution that saw the emergence of writers like Mary Wollstonecraft and Thomas Paine who argued that liberal principles could only be inadequately instantiated in a society with high levels of material and social inequality to John Stuart Mill the first major thinker who declared himself a liberal and a socialist and who made major contributions to both traditions through his efforts to synthesize and conciliate them McManus argues for liberal socialism as a political theory which could truly secure equality and liberty for all An essential book on the tradition of liberal socialism for students researchers and scholars of political science and humanities

We, the Mediated People Joshua Braver, 2023

The Reopening of the Western Mind Charles Freeman, 2023-02-07 A monumental and exhilarating history of European thought from the end of Antiquity to the beginning of the Enlightenment 500 to 1700 AD tracing the arc of intellectual history as it evolved setting the stage for the modern era With more than 140 illustrations 90 in full color Charles Freeman lauded historical scholar and author of *The Closing of the Western Mind* A triumph *The Times* London explores the rebirth of Western thought in the centuries that followed the demise of the classical era As the dominance of Christian teachings gradually subsided over time a new open mindedness made way for the ideas of morality and theology and fueled and formed the backbone of the Western mind of the late Middle Ages the Renaissance and beyond In this wide ranging history Freeman follows the immense intellectual development that culminated in the Enlightenment from political ideology to philosophy and theology as well as the fine arts and literature He writes in vivid detail of how Europeans progressed from the Christian minded thinking of Saint Augustine to the more open minded later scholars such as Michel de Montaigne leading to a broader more humanist way of thinking He explores how the discovery of America fundamentally altered European conceptions of humanity religion and science how the rise of Protestantism and the Reformation profoundly influenced the tenor of politics and legal systems with enormous repercussions and how the radical Christianity of philosophers such as Spinoza affected a rethinking of the concept of religious tolerance that has influenced the modern era ever since

The

Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism Matthew McManus, 2022-09-07

This book is a systematic and thorough analysis of what post modernity is and how it emerged. It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful. It discusses the three factors which led to its emergence namely liberalism, capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies. The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries. Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level. However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade. This book will be of interest to scholars working in a number of fields including economic policy, cultural analysis, political theory and social critique.

An Analysis of Thomas Hobbes's Leviathan Jeremy Kleidosty, Jason Xidias, 2017-07-05 Thomas Hobbes is a towering figure in the history of modern thought and political philosophy. He remains best remembered for his 1651 treatise on government, *Leviathan*, a work that shows at the very best the reasoning skills of a deeply original and creative thinker. Creative thinking is all about taking a novel approach to questions and problems showing them in a new light. When Hobbes was writing *Leviathan* the standard approach to understanding and advocating for monarchical government was to argue using Christian theology that kings and queens gained their power and legitimacy from God. At a time of intense political turmoil in England with civil war raging from 1642-51 Hobbes took the original step of basing a political theory upon reason alone and focusing on human nature. His closely reasoned arguments made the book a controversial best seller across Europe at the time of its publication and it has remained a cornerstone of political theory ever since. Though Hobbes argued for government by an absolute monarch many of his ideas and precepts helped form modern liberal ideas of government influencing among others the American Constitution.

Moral Concepts and their History Edward Skidelsky, 2021-12-19 This edited volume is devoted to the history of moral concepts including shame, contempt, happiness, conscience, cleanliness and the brick. The chapters in this book are written from the diverse perspectives of the philosopher, theologian, linguist and historian of ideas. However they are united in the conviction that these concepts are illuminated by being treated historically or even more strongly that we cannot fully understand what they are now without knowing the history of how they have come to be. Viewed in this way the history of moral concepts is a crucial preliminary to moral self understanding as well as an interesting enquiry in its own right. The chapters in this book were originally published as a special issue of the *History of European Ideas*.

A Reader's Companion to The Prince, Leviathan, and the Second Treatise John T. Bookman, 2018-12-28 Machiavelli, Hobbes and Locke each sought a new foundation for political order. This book serves as a reader's companion to Machiavelli's *The Prince*

Hobbes's *Leviathan* and Locke's *Second Treatise* written for graduate students and scholars seeking a fuller understanding of these classic texts. How do these philosophers respond to perennial questions such as why anyone is ever obligated to obey a government and whether there are any limits to such an obligation? In this book Bookman begins by sorting out the hermeneutical controversy between textualists and contextualists, offers a chapter by chapter commentary on the texts punctuated by questions for the reader's reflection and finally suggests a firmer foundation for a theory of political obligation than Hobbes's and Locke's consent theories. Also included are bibliographical essays keyed to select bibliographies providing readers with a wide ranging critical review of the secondary literature. Intended to be read alongside the primary work, the work is a full intellectual critical and bibliographical history as well as a fresh examination of three classic texts in political theory and philosophy.

The New Leviathans John Gray, 2023-11-07 A bold provocative reckoning with our current political delusions and dysfunctions. Ever since its publication in 1651 Thomas Hobbes's *Leviathan* has unsettled and challenged how we understand the world. Condemned and vilified by each new generation, his cold political vision continues to see through any number of human political and ethical vanities. In his wonderfully stimulating book *The New Leviathans* John Gray allows us to understand the world of the 2020s with all its contradictions, moral horrors and disappointments. The collapse of the USSR ushered in an era of near apoplectic triumphalism in the West, a genuine belief that a rational liberal well managed future now awaited humankind and that tyranny, nationalism and unreason lay in the past. Since then so many terrible events have occurred and so many poisonous ideas have flourished and yet our liberal certainties treat them as aberrations that will somehow dissolve. Hobbes would not be so confident. Filled with fascinating and challenging observations, *The New Leviathans* is a powerful meditation on historical and current folly. As a species we always seem to be struggling to face the reality of base and delusive human instincts. Might a more self-aware, realistic and disabused ethics help us? **The**

Distinction of Peace Catherine Goetze, 2017-02-02 Peacebuilding serves as a catch-all term to describe efforts by an array of international organizations, nongovernmental organizations and agencies of foreign states to restore or construct a peaceful society in the wake or even in the midst of conflict. Despite this variety, practitioners consider themselves members of a global profession. In *The Distinction of Peace* Catherine Goetze investigates the genesis of peacebuilding as a professional field of expertise since the 1960s, its increasing influence and the ways it reflects global power structures. Goetze describes how the peacebuilding field came into being, how it defines who belongs to it and who does not, and what kind of group culture it has generated. Using an innovative methodology, she investigates the motivations of individuals who become peacebuilders, their professional trajectories and networks, and the good peacebuilder as an ideal. For many working in peacebuilding in various ways—as an aid worker on the ground, as a lawyer at the United Nations or as an academic in a think tank—has become not merely a livelihood but also a form of participation in world politics. As a field, peacebuilding has developed techniques for incorporating and training new members, yet its internal politics also create the conditions of

exclusion that often result in practical failures of the peacebuilding enterprise By providing a critical account of the social mechanisms that make up the peacebuilding field Goetze offers deep insights into the workings of Western domination and global inequalities

The Struggle for Recognition in International Relations Michelle K. Murray, 2019 How established powers can facilitate the peaceful rise of new great powers is a perennial question of international relations and has gained increased salience with the emergence of China as an economic and military rival of the United States Highlighting the social dynamics of power transitions The Struggle for Recognition in International Relations offers a powerful new framework through which to understand important historical cases of power transition and more recently the rise of China and how the United States can facilitate its peaceful rise

Liberalism and Socialism Matthew McManus, 2021-08-31 In times of pandemic and global economic crisis little more than a decade after the last there are serious questions about how the liberal order can stand who its friends are and what the future will look like This edited collection provides a comprehensive overview of the principles and stakes at play in the dispute between liberalism and socialism It explores the 21st century appeal of socialism particularly to millennials and other relatively young citizens and shows why modern classical liberalism and neoliberalism have generated tepid support leading to the resurgence of socialism after it was thought dead and buried due to the dramatic failures of statist models in 1989 The authors put modern socialism and liberalism into renewed dialogue with another to examine whether the two can coexist peacefully or even reach an overlapping consensus on social reform going forward It delves into the history and theory of both liberalism and socialism to determine points of overlap and tension in addition to a cross disciplinary interpretive analysis of the present epoch to determine how both traditions have evolved since the 20th century The book is interdisciplinary and provides a broad array of perspectives including a diversity of ideological perspectives ranging from committed Marxists to libertarians It will be of interest to academics and students in economics and contemporary political culture

[The Oxford Handbook of Andrew Marvell](#) Martin Dzelzainis, Edward Holberton, 2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell 1621-78 Like his friend and colleague John Milton Marvell is now seen as a dominant figure in the literary landscape of the mid seventeenth century producing a stunning oeuvre of poetry and prose either side of the Restoration In the 1640s and 1650s he was the author of hypercanonical lyrics like To His Coy Mistress and The Garden as well as three epoch defining poems about Oliver Cromwell After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day in the process forging a long lived reputation as an incorruptible patriot Although Marvell himself was an intensely private and self contained character whose literary religious and political commitments are notoriously difficult to discern the interdisciplinary contributions by an array of experts in the fields of seventeenth century literature history and politics gathered together in the Handbook constitute a decisive step

forward in our understanding of him They offer a fully rounded account of his life and writings individual readings of his key works considerations of his relations with his major contemporaries and surveys of his rich and varied afterlives Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years the volume is both a conspectus of the state of the art in Marvell studies and the springboard for future research

The Engaging World of E-book Books: A Comprehensive Guide Revealing the Pros of Kindle Books: A Realm of Ease and Versatility E-book books, with their inherent mobility and simplicity of availability, have liberated readers from the limitations of hardcopy books.
