

Introduction to Ecology and the Biosphere

Ecology

- Ecology is the study of interactions between living organisms and their environment
 - Need to understand the **distribution** and **abundance** of living organisms
- Ecology is divided into four levels:
 - **Organismal**
 - Individual organisms
 - **Population**
 - Members of the same species living in the same area at the same time
 - **Community**
 - All species living in the same area at the same time
 - **Ecosystems**
 - Includes all biotic and abiotic components of an area

Ecological levels

- Individual organism → population → community → ecosystem

Individual zebra

Many individuals of the same species living in the same place is called a population

A community together with the abiotic (non-living) environment is called an ecosystem
