- The Freezer Temp Control range is from -6°F to 8°F (-21°C to -13°C). Press the Freezer Temp button to cycle through the available temperature settings one increment at a time.

NOTE: When changing control settings, wait 24 hours before making additional adjustments. The controls are set correctly when milk or juice is as cold as you would like and when ice cream is firm. If the temperature in either compartment is too cold or too warm, change the setting one increment at a time. Wait 24 hours for the change to stabilize before adjusting again.

NOTE: The dispenser will not work if any door is left open or if the control lock is engaged.
